

Crowds Turned Away At Washington Park

Giants Get Cold Reception in Initial Baseball Classic at Washington—President Coolidge Among Notables in Attendance—Johnson and Nehf and McQuillan Warm Up.

By Telegram to The Freeman.
Griffith's Stadium, Washington, Oct. 4.—Dropped down in the midst of a world's series for the first time since baseball ceased to be a pastime for gentlemen with long hair and short breath, 40,000 Washington citizens held high carnival this afternoon as the New York Giants and Washington Senators stepped out for the game of the championship of all championships.

Armed with cow bells, sirens and brass larynxes, the local citizenry cheered the Senators' every move and went into a seance of wild hysteria as Walter Johnson, king of pitchers, went out to warm up his god right arm for his long awaited appearance in a world's series game.

The Giants may have some friends out apparently they were no nearer the scene of action than the Battery sea wall at the foot of Broadway. It was a distinctly partisan crowd, the and they rear in Cleveland, St. Louis and kindred spots where a New York ball player is not an evil to be highly esteemed.

The further fact that the Giants were involved in the unsavory mess, whereby Cozy Dolan and Jimmy O'Connell were convicted of attempting to bribe a rival player, did not commend the New York outfit to the crowd's fancy. The Giants seemed to sense the fact that they were pretty much alone in this section of the world and they were a grim looking lot when they took the field.

The boys in the bleachers looked down the collective nose at the ball club of our Mr. McGraw and here and there an admonishing nod and here an admonishing nod and here an admonishing nod and here an admonishing nod.

One and all, however, were greatly heartened by the appearance of a soon day sun that cut through the fog and cast a mellow glow upon the proceedings. This was taken as a good omen for the Giants who had begun to fear that they would have to face Walter Johnson on a dark day. This is tantamount to an attempt to read a spade flush in a tunnel.

Hugh McQuillan and Art Nehf warmed up for the Giants, who went into the game a short end choice at six to five.

The Jocose Altrock was the first player on the field, accompanied by Al Schacht, his straight man and a derby hat of the Weber and Fields vintage. Nick embellished the headgear with a collegiate hat band of subdued Alice blue.

The rest of the Washington team followed at 12:22 o'clock, Roger Peckinpaugh and Sam Rice leading the way. Joe Martina pitched to the batters at the outset.

Walter Johnson's appearance in front of the batting screen prompted the merry villagers to raise a peacoe of greeting.

In order that no customer's money might escape from its natural home, every available foot of Griffith Stadium was used stands, permanent and otherwise. The permanent bleachers in left center were opened shortly after 11 o'clock.

After the local management had finished with the business of accommodating the customers, there wasn't a whole lot of room for the ball game.

The Giants trailed on the field at 12:45 o'clock and immediately deployed along the left field line, tossing a dozen baseballs about.

New Parking Rule On Broadway

Friday afternoon the police department put into force a new parking rule on central Broadway whereby all automobiles parking on the block from Dederick street to the West Shore railroad crossing and on the other side of Broadway from the Y. M. C. A. to the railroad tracks now park head-on to the curb. This is the plan in force on State street in Albany and is also in force in other cities where the streets are wide enough to do so. The plan was put in force to relieve parking conditions on that section of Broadway.

Arraign Ginardi For Assault

Said to Have Been Occupant of Automobile When Sam Macino was Shot Near Marlborough—Macino's Condition Serious.

Angelo Ginardi, who was held up at the Roundout creek bridge on September 24 by the local police on suspicion of being the man who drove the Hudson car which conveyed the men to Marlborough from Newburgh at the time Sam Macino was shot, was formally charged with assault in the first degree when arraigned before Justice of the Peace Hutchins at Marlborough on Friday afternoon.

Ginardi, who is said to be one of the four occupants of the car, continues to maintain silence and contends that he was alone on the day of the shooting, that he did not drive the car in which Sam Macino was riding and that he does not know the other men involved in the shooting. He claims that he was on a business trip and knows nothing of the shooting and the charge of assault.

In placing the charge of assault in the first degree against Ginardi, the authorities do so in the belief that he is the man who fired the shot which was found near the scene of the shooting.

Chief J. Finnegan appeared for Ginardi at the hearing Friday and moved that the information be dismissed and the defendant discharged on several grounds. This was denied by Justice Hutchins and a motion was then made to have bail fixed by the court. This was also denied and Ginardi returned with the sheriff to the Ulster county jail. In refusing to fix bail, Justice Hutchins stated that the crime was a serious one and that the extent of the injuries to Sam Macino had not been determined. According to the doctor's testimony in the case at a former hearing, Macino is liable to die at any time. In view of these circumstances bail was denied by the justice, who stated that he would not attempt to interfere with this matter but would leave that to a higher court of record.

Mr. Finnegan reserved the right to make any further motions in reference to the information on the adjourned day and demanded an examination for the defendant. A plea of not guilty was entered in the case and an adjournment by consent was taken until October 8 at 2 p. m.

The information upon which the charge of assault in the first degree is made is based upon statements of Trooper Alsdorf who was at the scene five minutes after the shooting and upon certain testimony taken at a former hearing of one Palpoli who conducts a fruit stand a few hundred feet north of the scene of the shooting. Palpoli saw a Hudson car driven north after the shooting and saw the driver who was alone throw some small dark object over the fence into the bushes. A search of the location revealed the gun of the same calibre of the shells found at the scene of the shooting.

Two Killed When Auto Hit Pole

BUILDING AT 90 BROADWAY PURCHASED BY Z. J. MAROON

Z. J. Maroon of No. 100 Broadway, has purchased the three story brick building at No. 90 Broadway. The first floor contains two stores; one empty and the other occupied by Jacob Balzani as a barber shop. The two upper floors are flats. It is understood that Mr. Balzani is planning to make his home in New York city.

Eighty Ill From Poisoned Spring

Victims Show Symptoms of Croton Oil or Jalap—Spring May Have Been Poisoned by Substance from Manufacturing Plant.

By Telegram to The Freeman.
Syracuse, N. Y., Oct. 4.—A wholesale attempt to wipe out a neighborhood through poison placed in the spring supply the vicinity families with water is the theory being followed by police and health authorities today as they investigate the illness, within two days, of eighty persons, members of twenty families, at Onondaga Valley, a suburb.

While the cause of the illness epidemic which nearly claimed the life of one woman, will not be known until there has been a full analysis of the water from the suspected poison spring, authorities admit the case looks like a deliberate plot. W. L. Clift, one of those stricken, is the authority for the statement that the lock to the spring house had been broken open.

From the symptoms of those ill, physicians believe croton oil or jalap was placed in the spring. A second theory receiving attention from the authorities is that the spring water was polluted by a substance sifting through a rock strata from the Solway Process Company. This theory was advanced today by Coroner E. Ellis Crane.

Coroner Crane stated today that several years ago the Dorwin Springs were similarly affected, causing illness to scores of families in the vicinity. At the time the pollution was traced to the Solway Process company, whose operations at the time were being conducted on the same strata of rock in which the spring had its source.

The theory of a wholesale poison plot was tossed into the discard this afternoon by the investigating authorities. Partial analysis of water from the springs convinced the authorities that the poisonous matter was introduced by surface water during the heavy rains of the past week.

Shackle Victim Set at Liberty

By Telegram to The Freeman.

Syracuse, N. Y., Oct. 4.—Nineteen year old Ida Stanton, alleged shackle victim of the George Junior Republic at Freeville, is at liberty today.

Free from the shackles which kept her in bondage for more than two weeks, the girl left police headquarters today to pursue her quest of an education, which she claims, was her main reason for voluntarily becoming a citizen of the Republic.

Miss Viola Don, a teacher at the Republic with whom Miss Stanton was well acquainted, visited her at police headquarters today. The couple talked for a long time over the suggestion that the girl decided to remain in Syracuse and make an attempt to educate herself.

Miss Alice Robertson, No. 52 Chaney street, Astoria, yesterday denied that she was the girl's legal guardian. In spite of her denial, Miss Stanton today reiterated her former statement and insisted that Miss Robertson was her legal guardian.

Two Killed When Auto Hit Pole

By Telegram to The Freeman.
Kearney, N. J., Oct. 4.—Two men and a woman are dead and two women were in the hospital here today as the result of their crashing into a telegraph pole.

The Dead.
Mathilda McHale, 21, Newark, N. J.; C. J. Sheen, 27, Pittsburgh; Thomas Galvin, 24, Trenton, N. J.

The Injured.
Catherine McHale, 23, sister of the dead woman suffered a fractured skull; Margaret Hacker, 22, Irvington, N. J., lacerations of the skull.

Bernard McGuire, driver of the car, was under arrest.

The automobile party was returning from a dance. The machine was reported by police to be going 45 miles an hour when it hit the pole.

STREET SWEEPER STRUCK BY AN AUTOMOBILE

Fred Baldwin, a street sweeper in the employ of the board of public works, while at work at Washington avenue and North Front street, was struck by an auto of George Walker and knocked down this morning.

Baldwin, however, picked himself up uninjured and resumed his duties. The accident was reported to the police by Mr. Walker.

McAndrew Hit By Automobile

Robert McAndrew of No. 23 Liberty street, chauffeur for the Rev. John P. Neumann, pastor of St. Peter's Church, while riding a bicycle on Broadway this morning, was struck by an automobile driven by J. H. Mills of Albany. He was picked up and rushed to the Kingston City Hospital, where it was found that he was badly bruised about the body and one hand was injured. After having his wounds attended he was able to leave the hospital. The accident was reported to the police department later by McAndrew and Mills.

Pupils Shout for Rubber Hose

Snicker Gleeefully When Hearing Is Held on Charges That Principal Used Two-Foot Length of Hose in Administering Corporal Punishment.

By Telegram to The Freeman.
Elmsford, N. Y., Oct. 4.—Whether a length of hose shall be used in chastising public school pupils will not be settled until next Wednesday night. Townsmen and members of the board of education couldn't make up their minds at a meeting lasting until late last night, so, after listening to hot arguments and witnessing wild disorder which ended the gathering, they decided on the Wednesday meeting, which will not be open to the public.

Howard G. Holden, principal of the Elmsford public school, is accused of having wielded the inch-thick, two-foot length of hose on a negro girl pupil, who is said to be a cripple. The incident precipitated a controversy which brought about trial of the corporal punishment idea.

Children who are pupils in the school made up a large part of the gathering. They snickered gleeefully as the arguments progressed and took advantage of every occasion to shout: "We want Holden; we want the rubber hose."

Signs of various descriptions had been posted on the walls, some reading: "Hose and Holden." "We want Holden," and "We're 100 per cent for Holden." Pupils said they placed them there.

Holden gave the scene a dramatic touch when he declared that his father now is a cripple because of a whipping administered Holden when the principal was a school boy.

He explained with tearful eyes that his father had thrashed him with a rawhide whip when a tender sent him home with a note and that he had threatened to get even. When he was 18, he said his father taunted him about the threat, and in the friendly scuffle which followed his father suffered an injury to his spine which left him a cripple.

Mrs. William Clark, one of the citizens attending the meeting, became so excited she jumped to her feet near the close of the session and seized the worn piece of hose used as an exhibit. Lashing about her at the trustees, she shouted:

"There, does that hurt?"

"No, no," said Holden and the trustees, while jeers, cheers and laughter mingled among the spectators.

Estimates were that less than forty persons at the meeting were in favor of taking from Holden the right to inflict bodily punishment.

CANADIAN PRISONER MAY BE MISSING BANKER

By Telegram to The Freeman.
North Bay, Ont., Oct. 4.—Arrival of New York officers late today was expected to determine whether North Bay police are right in their belief that the prisoner known here as Max Bauman is Marcus Tauster, junior partner of the defunct banking firm Garafunkel and Tauster of New York.

Bauman would neither admit nor deny that he was Tauster.

Tauster disappeared from New York at the time that the Garafunkel and Tauster bank closed, with stated liabilities of \$200,000. Police here said Bauman's appearance checks with the descriptions of Tauster.

STATE CIVIL SERVICE EXAMINATION TODAY.

A state civil service examination in charge of P. H. Cullen, local examiner, was held at the supervisors' room in the court house today. There were thirteen who took the examination for inspector for the motor vehicle bureau, three for park engineer, two for telephone operator, one for children's agent, junior grade, and for guard farmer.

BURNED TO DEATH

Woman Trapped by Blaze When Louisiana Hotel Burns.

By Telegram to The Freeman.
Shreveport, La., Oct. 4.—One woman was burned to death here and a child seriously injured and a number slightly hurt here early today when the Charles hotel was destroyed by fire.

The dead woman Mrs. O. P. Robinson, 25, was sleeping on the third floor when the alarm sounded and was trapped by the blaze while groping for an exit.

President Outlines Our Foreign Policy

President Coolidge Pays Tribute to Deeds of First Division—Outlines Foreign Policy as Opposing Combination Hindering Our Independence—Private Citizens Should Carry Out Dawes Reparations Plans.

Camps Inspected At Slight Cost

State Department of Health Inspected 400 Summer Camps at \$2,000 Expenditure—Dual Water Supplies and Poor Drainage, Chief Faults.

Although the work was not commenced until July 1st, the Division of Sanitation of the State Department of Health succeeded in making sanitary inspections of nearly 400 summer camps before the 1924 season closed. These camps had a total population of about 150,000 made up almost entirely of children and young people. The work was accomplished with the expenditure of about \$2,000 only, and was well worthwhile if but one fatality from typhoid fever was prevented.

Among the commoner faults found in the camps were dual water supplies, one for drinking and the other for general use such as flushing toilets, and washing and cleaning. The danger of such practices lies in the fact that all too frequently campers will drink from the nearest faucet, which may be the outlet of the water intended for other purposes and which may be unfit for drinking. In fact it is difficult to keep people from drinking any water which is clear and has an agreeable taste. The supply for general use is frequently taken from a lake or stream in which bathing is permitted and which is often polluted by sewage and waste water. Inasmuch as lakes and streams are always subject to pollution, water supplies derived from such sources cannot be considered safe for human consumption without purification. However, since it is difficult, if not impracticable, to purify the small quantities of water required for camps, their entire water supplies should if possible be taken from springs or wells so located and protected as to be free from pollution.

Other features which the inspectors often found were poor drainage and inadequate methods of sewage disposal. These conditions were caused in most cases by lack of understanding on the part of the camp authorities as to the importance of the character of the soil, and the relative elevation and location of buildings with respect to the lake, spring or well used as a source of water supply. Many buildings were located very close to the water's edge of lakes making it impossible to drain to cesspools at a lower point without endangering the quality of the lake water. Other camps were located on low, saturated soil of a dense nature, making it impossible to dispose of sewage in cesspools or subsurface irrigation system. On the other hand, camps located upon well-elevated, sandy sites had little trouble in securing a supply of pure well water, and in disposing of liquid wastes by seepage without polluting the well or the lake.

In addition to the organized camps which are inspected, it is estimated that there are between 3,000 and 3,500 wayside automobile camps in New York State, and that these are patronized annually by from 200,000 to 300,000 persons. Obviously, with the limited force at the command of the State Health Department it is impossible to supervise all such camps. Only by the cooperation of owners and patrons can these camps be maintained and operated in a sanitary manner.

Bandits Wreck Fast Mail Train

By Telegram to The Freeman.
Aviston, Ill., Oct. 4.—Posses today were seeking bandits who last night caused a wreck of the fast bound Ohio mail train here. Engineer Van Olman was killed, Fireman Purcell fatally injured, 15 passengers badly injured.

Eight coaches of the train, which was reported to have been carrying large shipment of currency, went into the ditch.

A cut switch caused the wreck. Farmers nearby said they saw a number of men on the tracks at the scene of the wreck a few hours before the train came.

The train was enroute from St. Louis to Washington, Indiana.

Dance at Clermont Hall.

The regular Saturday night dance will be held as usual this evening at Clermont Hall. During the evening there will be several new songs introduced by Charles Howard's Casino.

This orchestra played the past summer at Kingston Point Casino. A large crowd is anticipated for an exit.

President Outlines Our Foreign Policy

Washington, Oct. 4.—Standing in the shadow of the great gray state, war and navy building, President Coolidge this afternoon dedicated a monument in memory of the five thousand dead of the First American Division in the World War and took occasion to outline his foreign policy with a declaration opposing any alliances or international combinations which would keep the United States from charting its own course in world affairs.

"We do not propose to entrust to any other power or combination of powers any authority to make up our mind for us," the President declared. "If there is anything which is dear to Americans, which they are bound to preserve at all hazards, it is their independence."

"We recognize that we are a part of the great brotherhood of mankind, that there are mutual duties and obligations between nations as there are between individuals. America has every wish to discharge these obligations. We wish to recognize these requirements for the promotion of peace. War and destruction are unnatural; peace and progress are natural. It is in that direction that the people of the earth must move."

"I am in favor of treaties and covenants conforming to the American policy of independence to prevent aggressive war and promote permanent peace, but they have little value unless the sentiment of peace is cherished in the hearts of the people. Peace is the result of mutual understanding and mutual confidence exemplified in honorable action."

"What we need now is to cherish the motives for which we made peace (after the world war). We want to see the Allies paid, we want to see Germany restored to a condition of productivity and progress, under which she will be able to take up the burden of civilization."

The President called attention to the Dawes reparations plans, "the essence of which was that it should be carried out by private citizens unhampered by political considerations."

"That was done," he said, "the American government was the architect. The experts unconnected with any government built the structure known as the Dawes plan. The Allies and Germany have adopted it. It remains for private enterprise in this country and Europe to help finance it."

With the operation of the Dawes plan, Mr. Coolidge said, he believed there would be a revival in Europe, "and that we shall receive the benefit of a larger market for the products of our farms and our factories."

Turning to the campaign issues raised by Senator LaFollette, in demanding substantial changes in the Constitution and government ownership of railroads and other utilities, the president said:

"You want your rights protected by the Constitution and the flag which is its symbol not only because it represents to you the homeland, but because you know it is the sole course of American freedom. You want your rights protected by the impartial judicial decisions of the courts, where you will have a right to be heard and not be exposed to the irresponsible determination of partisan political action. You want to have your earnings and your property secure. You want a free and fair opportunity to conduct your own business and make your way in the world without danger of being overcome by government monopoly. When the government goes into business it lays a tax on everybody else in that business, and uses the money that it collects from its competitors to establish a monopoly and drive them out of business. No one can compete. When the government really starts into a line of business, that door of opportunity is closed to the people. It has always been an American ideal, that the door of opportunity should remain open."

The President paid tribute to the deeds of the First Division, declaring that the nation recognizes toward all its war veterans a "debt which it can never repay, but which it will never repudiate."

The unveiling of the monument was preceded by a brilliant military spectacle when units of the First Division, led by Major-General C. F. Smith, marched along Pennsylvania avenue, from the capitol to the treasury, and were reviewed by the president.

The actual unveiling was performed by Private Daniel B. Edwards, of Company C, Third Machine Gun Battalion, after the national salute had been fired by Battery C of the Sixth Field Artillery—the units which fired the first American artillery shot in the world war.

The division memorial is a granite monument, 78 feet high, surmounted by a gold statue of victory. The names of those who died while fighting with the division, are inscribed on the granite base.

KINGSTON REALTY AND APARTMENT CO. INCORPORATES

The secretary of state has certified to the Ulster county clerk that a certificate of incorporation has been granted to the Kingston Realty and Apartment Co., Inc. The purposes for which the corporation was formed is to acquire, purchase, lease and sell real property. The capital stock is \$50,000, being 500 shares of \$100 shares each. The principal office will be in Kingston, N. Y. The directors are William J. Dwyer, Leo F. Saddlemyer and Marge A. Davitt.

Lutherans Hold Joint Meeting.

The Luther League of Saugerties, Hudson and this city held a joint meeting at the Lutheran Church, Saugerties, Friday evening.

Change Date of Bazaar.

It has been decided to change the date of the Holy Cross Parish Bazaar from November 11 to November 4.

LASSIE IS LOST

Valuable Dog Owned by Assistant District Attorney Murray Missing.

Lassie, a light brown and white female collie dog, owned by Assistant District Attorney Cleon B. Murray of Ellenville is missing, and he has offered a reward for the return of the animal. The dog is accustomed to accompany Mr. Murray to the court house on Wall street. Friday the dog became frightened and left the court house. Lassie evidently started to return to Ellenville, taking the Hurley road and later going across lots to Lucas Turnpike where all trace was lost. The dog's license number is 282202.

Held Fined \$5.

Nelson Held, an electrician, was picked up helplessly drunk on Fair street Friday night by Officer Ira Britt. This morning Judge Schietrick in police court imposed a fine of \$5.

Removed to Hospital.

Mrs. Laura Bell was removed from her home, No. 121 North Front street, to the Benedictine Hospital in the ambulance Friday afternoon.

ASTHMA IS NOT A VAGARY OF CLIMATE

Health Talk

By Froude & MacKinnon, D's.C.

Asthma is not a product of climate, nor will a change of climate bring about a cure. Change of climate may ease the condition, but the cause is in the spine, and "the asthmatic hump", as it is called, is a well recognized spinal accompaniment.

The above information was given an asthmatic sufferer who went to the dry climate of South Dakota, and found some measure of relief. He says, "The asthmatic attacks did not stop when I came, but I was soon rid of them under chiropractic spinal adjustments." Then he asked whether he could take a chance on returning to his home town, and the chiropractor assured him that he could. If climate caused asthma, then all residents of the states south of the great lakes would have it.

J. L. MacKinnon, D. C.

SUFFERED FOR SIXTEEN
YEARS, THEN GOT WELL

"After suffering with asthma for sixteen years, and not being able to get any permanent help, I was advised to try chiropractic spinal adjustments. I am thankful that I did. I have been feeling like a new man since. Not a spasm have I had since. I can lie down at nights and sleep, something I could not do for several years."—H. L. Buchner, Chiropractic Research Bureau, Statement No. 1347H.

PHONE 776 FOR APPOINTMENT.

Our success is due to our policy of never accepting cases that we cannot benefit. We are graduates of the University and Palmer Schools of Chiropractic, Iowa—the world's foremost chiropractic colleges. The system of painless adjusting originated by us is acknowledged far superior to any method heretofore in use.

Y. M. C. A. Gym Opens Monday

The floor of the Y. M. C. A. gymnasium has been scraped and planed with two large sanding machines until it was in first class order. Oil was next placed on the floor and it was then in line for handball, basketball, baseball and other games. It is now being allowed to dry and by Monday it will be in first class shape.

The fall gymnasium work of the association will open Monday noon with a business men's class at 12 o'clock. This is open to all business men. Special attention will be given to body building exercises and also to recreation, which will take the form of volleyball. At 3:45 of the same day boys' class (Student B) will meet for their regular period. The employed boys have the use of the floor at 7:15 p. m., and the regular senior work begins at 8:15.

The schedule for the season is as follows:

Business Men's Classes—12:15, 30, Monday and Friday; 5:30, Tuesday and Thursday.

Seniors—8:15-9:45, Monday, Thursday and Friday.

Employed Boys—7:15-8:15, Monday, Wednesday and Thursday.

Student A—3:15-5:15, Tuesday and Thursday; 10:30-11:45, Saturday.

Student B—3:45-5:30, Monday and Wednesday; 9:30, Saturday.

H. Y. Basketball League—8:15-9:45, Wednesday.

Rotary Boys' Club—6:30-7:15, Thursday.

A business men's volleyball league will be organized during the season. This league will play its games on Saturday afternoon.

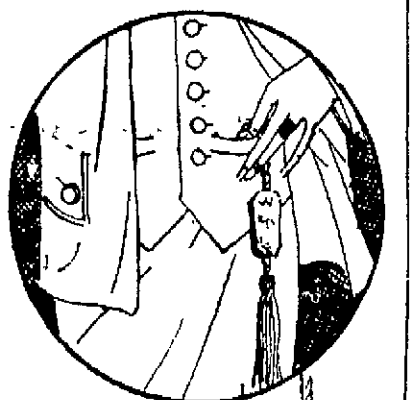

The gymnasium floor has been reserved on Saturday evening for the Sunday school basketball league, which will be organized during November.

The year's program also calls for the organization of several other leagues for both boys and men. These will be announced from time to time as they are worked out.

NOVEL JEWEL ACCESSORIES.

(By Eleanor Gunn.)

That mirrors may be ornamental as well as useful is one of the lessons one learns from surveying costume jewels just now. Suspended about one's throat on ribbon or chain, an oblong mirror with faceted edges, like the unframed mirrors of olden days, may serve not only as a means of the powdering process, but as a decoration de luxe.

6.

All sorts of interesting bits of jewelry which have little intrinsic values are being worn. There are pearls which make no pretense to being real, and are not only white and pink and yellow, but black, and even a soft, very flattering brown, these usually strung with creamy pearls for a choker or two-ropes necklace.

The watch fob naturally comes in on the crest wave which washed every detail from the Directorate. It need not necessarily be of diamonds and it may, as one may see, have a very Chinese looking tassel.

Correct this sentence: He attacked me, said the jealous wife, and in the struggle the gun went off by accident.

How to become a stupid sap: Keep thinking of how stupid others are; hunt for the line which separates average intelligence from superior intellect; focus your eyes continually on the other fellow's deficiencies.

Success.

Consists not so much in sitting up nights as being awake in the daytime.

Slogan for babies and attractive women: Smile, and the world smiles with you; cry and everyone breaks his neck trying to do something for you.

"Kiss Me Again" is said to have been Victor Herbert's most popular song. It is both a request and an invitation.

Italy may lie beyond the Alps but most of our politicians can lie any old place; proving that Italy isn't so much at that.

The Criminal.

When the donkey saw the zebra He began to switch his tail. "Well, I never," was his comment. "There's a mule that's been in jail."

It is going to be pretty hard hereafter for people to get into this country—unless they come for the purpose of spreading propaganda.

DEAF CAN HEAR, SAYS SCIENCE

Innumerable Cases Cited

Attention is being called to a remarkable device invented and perfected by the Dilegraph Products Corporation. By means of this device, as proved by thousands of letters this company has received from users, the hearing is greatly aided, with consequent relief from nerve strain.

Various models of this device are now being shown and offered for trial by

McBRIDE'S DRUG STORES.

Nation's Hall of Fame

The Hall of Fame, in New York, belongs to New York university. The money to build it, amounting to \$250,000, was given anonymously for this particular purpose. It is known officially as "The Hall of Fame for Great Americans." Fifty names were to be inscribed on the tablets as the beginning, and five additional names every fifth year thereafter until the year 2000. Only persons who have been dead twenty-five or more years are eligible to be chosen.

Like Seasoned Meat

Dried whale meat, seasoned for a year or two, is a favorite article of diet in the Faroe Islands

Endurance Run For Chevrolet

One Hundred Hour Run to Start October 7—Test Car Has Been Run Nearly 12,000 Miles.

The Automobile Club of Ulster County will officially observe and check a 100-hour endurance and economy run of a Chevrolet touring car which will be sent out over the roads of Ulster county on Tuesday, October 7, at 8 o'clock in the morning by Sutcliffe, Inc., local distributors for Chevrolet cars. This test is a part of a nation wide endurance and economy test, which has been planned by the Chevrolet Motor Car Company. All over the country Chevrolet cars will be run for 100 hours continuously in order to prove their economy, endurance and ability. The question of how far a Chevrolet car will run in 100 hours, how much gasoline it will use, how much oil it will use and how much water it will use will be answered by Roy M. Sutcliffe, president of Sutcliffe, Inc., local Chevrolet dealer, at the close of his endurance run on Saturday, October 11, at 8 p. m., when the test will close.

A regular stock touring car that has been run almost 12,000 miles will be used in the test. Sutcliffe, Inc., are using this car in preference to a new one since they are anxious to show the public what may be expected from a Chevrolet which has already covered as many miles as the average car owner would cover in two or three years.

The route has already been laid out by Sutcliffe, Inc., and will include most of the important roads in the vicinity. The car will be run at various speeds by a crew of drivers, similar to the speeds that ordinarily are used by any driver making a 150-mile trip, slower in the congested districts and over bad roads, with greater speed over main truck state highways.

At the conclusion of the test the car will be placed on display on the local Chevrolet showroom and may be inspected by anyone.

The representative of the Automobile Club of Ulster county will officially check the amount of gas and oil which is used by the car. At each call at the station the seals will be opened by the representative of the Automobile Club and the gasoline and oil measured and new seals put on. An observer will also ride in the car.

Although it is not known how many miles the Chevrolet car will be driven in the five day 100-hour grind, it is estimated that at the very least the car will have run up a mileage as great as would ordinarily be given in eight months.

Sutcliffe, Inc., are offering three prizes to the three best guesses on the actual number of miles this Chevrolet travels during the hundred hours. These prizes are as follows:

First Prize—\$75 credit toward the purchase of any new Chevrolet car.

Second Prize—\$50 credit toward the purchase of any new Chevrolet car.

Third Prize—\$25 credit toward the purchase of any new Chevrolet car.

Because of this guessing contest, the mileage the car makes will not be announced until 8 p. m. Saturday, October 11, at which time all guesses must be presented at their local showroom. The run finishes at 12 o'clock noon, Saturday, October 11. However, the number of gallons of gas used, as well as the number of quarts of oil, together with other details of the run, will be published daily.

Sand Exposed O'Connell's Bribery Attempt

Baseball Commissioner K. M. Landis gave high praise to Heinie Sand, shortstop for the Philadelphia Nationals, for exposing the attempt of "Jimmy" O'Connell, center fielder for the New York Giants, to give him \$500 to throw game and clinch the National League pennant for the Giants.

Free Clinic Was Largely Attended

The free clinic for the prevention of diphtheria held Friday afternoon at the city hall was largely attended. There were 250 children who received an injection of toxin-antitoxin. Of that number thirty-five children received a first injection. Another clinic will be held by the board of health next Friday afternoon at the city hall at 3:30 o'clock.

"Cozy" Dolan Banished in Baseball Scandal

"Cozy" Dolan, old time star ball player and close personal friend of Manager John J. McGraw, who made him trainer of the Giants, has been banished from organized baseball by Commissioner Landis for alleged participation in the plot of "Jimmy" O'Connell to bribe a Philadelphia player to "throw" a game and clinch the pennant for the Giants. Dolan denied his guilt.

Spiders as Cannibals

The Meanest Man in the World

3 Days Commencing MONDAY

Dimitri Buchowetzki PRODUCTION
POLA NEGRI in LILY OF THE DUST

From wallflower to wildflower, from the heights to the depths, from the sweet flower of a great love to the bitter remnants—Pola runs the whole range of life in this sensation-filled drama.

Magnificently screened by the man who directed "Men."

From a novel by Hermann Sudermann and a play by Edward Sheldon. Written for the screen by Paul Bern

ONE SOLID WEEK
Commencing Monday OCT 6

KINGSTON OPERA HOUSE
6 NIGHTS AND 6 MATINEES

Positively never before in the history of the local stage has there been produced anything as good as the list of plays to be offered here next week.

MONDAY MATINEE and NIGHT

JOHN GOLDEN'S BIG NEW YORK HIT

THANK YOU

In presenting this great play Mr. Champlin has secured one that is famous the world over.

While the royalty asked for is one of the highest ever paid for a stock play, Mr. Champlin feels that the entertainment it will provide for his patrons is worth the expense, as the best is none too good for his many friends in Kingston.

This is a story of comedy, romance and heart-grip, laid in a small town, with box office contrasts and characters, rubes and city guys.

Her uncle was a minister, a "Thank-U" man; and how he made the tight-fisted villagers sit up and respect him makes a mighty good play.

CHAS. K. CHAMPLIN STOCK CO.

A 60-foot baggage car-load of all special scenery and all kinds of special new effects. Playing to packed houses everywhere and turning them away.

With a stronger and better company and the greatest line of plays that has ever been seen in Kingston. Better than many of the plays now running in New York City.

TUESDAY, MATINEE AND NIGHT
The First Year
If you were asked to name the greatest play of the last fifteen years, without hesitation you would nominate that wonderful American comedy of married life "The First Year," which played for more than two years at the Little Theatre and for two seasons on tour was acclaimed by audiences from coast to coast as the finest play written by any American in many long years.

WEDNESDAY, MATINEE AND NIGHT
Just Married
The play that broke the world's record for laughter
2 SOLID YEARS IN NEW YORK 4 MONTHS IN PHILADELPHIA
6 MONTHS IN CHICAGO 5 MONTHS IN BOSTON
A CYCLONE OF HONEST LAUGHTER

THURSDAY, MATINEE AND NIGHT
Red Light Annie
The play deals with the story of a young married couple, Fanny and Tom Campbell, who come to New York from a small up state city and find themselves entangled in a mesh of circumstances that drags them down almost to the very gutter. Tom is sent to prison for a crime of which he is innocent. Fanny, through the vicious and subtle influences of her step-sister and her unscrupulous husband, becomes a drug addict.

FRIDAY, MATINEE AND NIGHT
7 Keys to Baldpate
George M. Cohan's Masterpiece
Positively the first time ever seen at popular prices
It knocks 'em cold with laughs gives 'em the sure-fire heart stiff and love, and behind it all a big idea that's going to make everybody talk

SATURDAY MATINEE ONLY
The Unwanted Child
A modern comedy drama of everyday life
A tremendous answer to the burning question that enters into every woman's life! Mothers bring your daughters! Every woman should see this wonderful play

SATURDAY NIGHT
Twin Beds
The Funniest Comedy Ever Written.

TORTOISE AND SUN

"They think," said the Giant Tortoise, "that I am just a great big creature without much appreciation of the beauties and the fine things of this life."

"But they're wrong. My keeper knows they're wrong, too."

"They think that I am perfectly happy doing nothing at all and that nothing particularly interests me or makes me especially happy."

"That is wrong."

"It is correct enough that I am not what you would call a busy tortoise. I don't care to rush and to have lots of things to do."

"I am contented and happy without much effort."

"But I am not entirely without appreciation of what is nice in this world."

"Ah, there is one thing I love."

"It is so beautiful and warm and cheering. I find it so pleasant. I appreciate it. Oh, I don't believe any one appreciates it as I do."

"And this object of my appreciation is the sun."

"I am here in the zoo, in this pleasant little house where there is nice dirt for my carpet and where above is a glass roof which makes it sunny and bright."

"But I appreciate the sun more than by simply enjoying it when I am inside."

"You might think I was lazy and that I could have a pleasant time staying where I happened to be and enjoying the warmth of the sun through the glass roof."

"But no, that is not enough appreciation for me to show the sun."

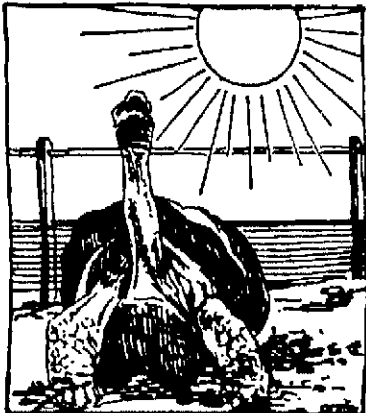

"Just as soon as the sun comes out I get up from my rest and I walk out of my door into the yard outside and there I stay as long as the sun shines."

"When the sun goes under a cloud I come back again to my house."

"I can't bear being outside and not having the beautiful sun shine overhead."

"Even if the sun only goes under a cloud and even if I am quite sure it may be out again very soon I go inside while it is under the cloud."

"If my door has blown so that it is shut I paw at it and at the gravel

"I Love the Sun."

and let them know inside that I have been shut out and that I would like to be let in."

"If they do not come to let me in at once I keep on making a noise until they do."

"But they usually come to me at once. It is only when they do not hear me at first that they do not come."

"They know that I love the sun and they know that it is not foolish of me, but that it is simply my way and they understand."

"They say:

"The sun must have gone under a cloud, that tortoise wants to come in."

"Usually my door is open and I can come in of my own accord."

"Then when the sun shines again I am all ready to go out once more."

"I get up, carrying my enormous shell covering with me—I always take my own special roof of my own special house with me wherever I go—and I stretch forth my very wrinkled neck and head and legs and out I go into the sunshine."

"You might say that I wouldn't be able to enjoy the sun so much with such a back as I have, or, on the other hand you might say that I shouldn't mind it when the sun goes under a cloud for a moment."

"But I do! I love the sun; I love it dearly. Yes, this Giant Tortoise adores the sun, and such are my ways in showing it my great appreciation for its warmth and its comfort and its wonderful, wonderful rays."

Pedantic Youngster

Hilda, eight years old, and her aunt were walking on a slippery roadside.

Aunt (thinking to test the little girl's ability to meet a situation)—This is precarious walking, isn't it?

Hilda—I should say it is.

Aunt—Do you know what precarious means?

Hilda (confidently)—Sure. Any fool would know that! It's dangerous.

Couldn't Part With All

Dorothy was objecting tearfully to some command of her mother. "Well," said her sister, "I guess we'll trade off this old mamma for a new one, since you do not like her."

"Yes, you may," sobbed Dorothy, "but (hesitatingly), I would like the new one to have the same old face on her."

GAS BUGGIES—There's Nothing Like Being An Opportunist

The KITCHEN
CABINET

(© 1924, Western Newspaper Union.)

A good cook can vary the flavors of food as a composer varies the orchestral colors and harmonies, getting genuine artistic gastronomic pleasures therefrom.—H. Flach.

"PUTTING UP" FOR WINTER

Every housewife likes a full fruit closet; but some seasons find us lacking the favorite fruits because they are too scarce and expensive.

Many times one may buy in dozen lots from the grocer at less cost than the home canned product, saving time and strength.

The fruit put up at home is so satisfactory that it will continue to be canned in most homes.

While apples are plentiful is the time to make jelly and marmalades, spiced apples, pickled apples, chutney and various combinations with other fruits.

Pickled Apples.—Take perfect crab apples, wash and remove the blossom end and stem until tender, then drop into a boiling sirup, using two cupsful of sugar, one of vinegar, a teaspoonful of cloves and a tablespoonful of broken cinnamon in sticks. Cook until clear in the sirup. Place the fruit in the cans and pour over the hot sirup and seal. Have plenty of sirup to cover.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Apple Jelly.—Cut apples into quarters and nearly cover in a granite kettle; cook slowly until soft. Drain through a jelly bag and measure the juice. Boil the juice twenty minutes, then add two-thirds as much sugar as juice and boil five minutes. For spiced apples and jelly add one tablespoonful of vinegar, one teaspoonful of cloves, one-quarter teaspoonful of cinnamon, and three-fourths of a cupful of sugar for each cupful of juice. Cook until the mixture jellies.

Grape Jam.—Wash and stem three pounds of grapes, removing the pulp from the skins. Simmer the pulp five minutes in a covered saucepan, then force through a sieve to remove the seeds. Crush the skins, add the pulp and one-half cupful of water. Bring to the boiling point, stirring constantly, then cover and simmer slowly one hour. Measure four cupfuls of the fruit mixture, adding water to make the fourth cupful. Put into a large saucepan, add sugar and mix well. Stir and bring to a vigorous boil for one minute. Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Remove from the fire, add commercial pectin, mix thoroughly and pour into sterilized jars. When cool seal as usual.

Held in Connection with
Officer's Death.

CAPT. ROSENBLUTH

Captain Robert Rosenbluth, of New York City, is soon to go on trial in Tacoma, Wash., with Roland R. Pothier, a former army sergeant, charged with the murder of Major A. P. Cronkhite, at Camp Lewis, Wash., in 1918. Major Cronkhite was first thought to have killed himself accidentally at target practice, but his family alleges he was murdered by Pothier at Rosenbluth's command.

SAUGERTIES.

Saugerties, Oct. 4.—On Saturday last, Mr. and Mrs. W. Fredenburgh of Saugerties attended the golden wedding of their aunt and uncle, Mr. and Mrs. Christina, in the southern part of the county.

CHAMPLIN COMPANY
AT OPERA HOUSE

Charles K. Champlin and his theatrical company will open a week's engagement next Monday afternoon and night at the Opera House. Mr. Champlin's company is playing six New York successes. The opening play at the Opera House next Monday will be "Thank You." This play ran for two years at New York, where it was produced by John Golden. The other plays are: "The First Year," "Just Married," "Red Light Annie," "Seven Keys to Baldpate" and "The Unwanted Child."

October D. A. R. Meeting.

The October meeting of Wiltwyck Chapter, D. A. R. was held at the Chapter House on Thursday afternoon, the regent, Mrs. Henry Van Hovenburgh presiding. During the business session delegates and alternates to State D. A. R. Conference soon to be held at Hornell, N. Y., were chosen as follows: Alternate to the regent, Mrs. T. D. Lewis; the first vice-regent, delegates, Mrs. Marcus Weed and Mrs. John Brodhead; alternates, Mrs. W. N. Fessenden, Mrs. Silas L. Wayne and Mrs. Hewitt. Boies.

Acknowledgement was gratefully made of the following gifts and loans: a gift of a bronze placque entitled the "Triumph," and showing in relief the heads of Washington, Lincoln and Grant; a gift of a bust of Washington on a pedestal, being a copy of one by Houdin. General Sharpe loaned the Chapter a Spanish flag and a Mauser rifle, both of which saw service with General Sharpe in the Spanish-American war, in Cuba. The Chapter rear books were given out this year, the Chapter having decided to take up the study of local history for the year. The speaker on Thursday was the Rev. Lucas Boeve, who spoke most interestingly and ably on "The First Church," "The First School," "The First Senate," etc., are some of the topics of subsequent addresses given by notable speakers. The hostesses for the social hour with which the meeting closed were Miss Beulah Smith and Mrs. A. K. Hart.

Russell, Sent to Jail.

George Russell of Saugerties was arrested there Friday on a charge of being drunk and disorderly. This was Russell's third arrest for the same offense. Police Justice Clyde R. Gardner sentenced Russell to thirty days in the county jail.

Card of Thanks.

Mrs. James Nutty and family wish to thank their many relatives and friends also the state highway employees for their kindness and beautiful floral tributes during the brief illness and death of their father and husband.

Sincere thanks,
MOTHER AND CHILDREN.

FIFTH
AVENUE

Arnold, Constable & Co.

AT
40TH STREET

"Where the Newest Fashions Cost the Least"

Beginning Monday, October 6th
The most wonderful values ever offered in
Scatter Size Oriental Rugs

WE'RE dealing in superlatives, because the values and the collection are superlative. It has taken us many months of untiring effort to collect the 3500 rugs for this annual fall offering. In it are included antique rugs, semi antiques, and modern weaves in Persian Beloochistans, Kazaks, Daghestans, Guendjis, Carabaghs, Afshars, Mossouls and Hamadans.

In two Large Selling Groups

Group 1

There are over 1,100 Persian Beloochistan rugs in this group. A carefully selected collection of the very highest type of this famous weave—antique, semi-antique or modern.

Approximate Sizes

2.6 by 4.0	11.50	2.9 by 4.6	14.50
3.0 by 4.6	17.50	3.0 by 5.0	21.50
3.0 by 5.6	25.50	3.0 by 6.0	31.50

Group 2

Over 2,400 high quality, carefully selected Kazaks, Daghestans, Guendjis, Carabaghs, Afshars, Mossouls, Hamadans. In this collection there is a preponderance of large and extra large throw rugs.

Approximate Sizes

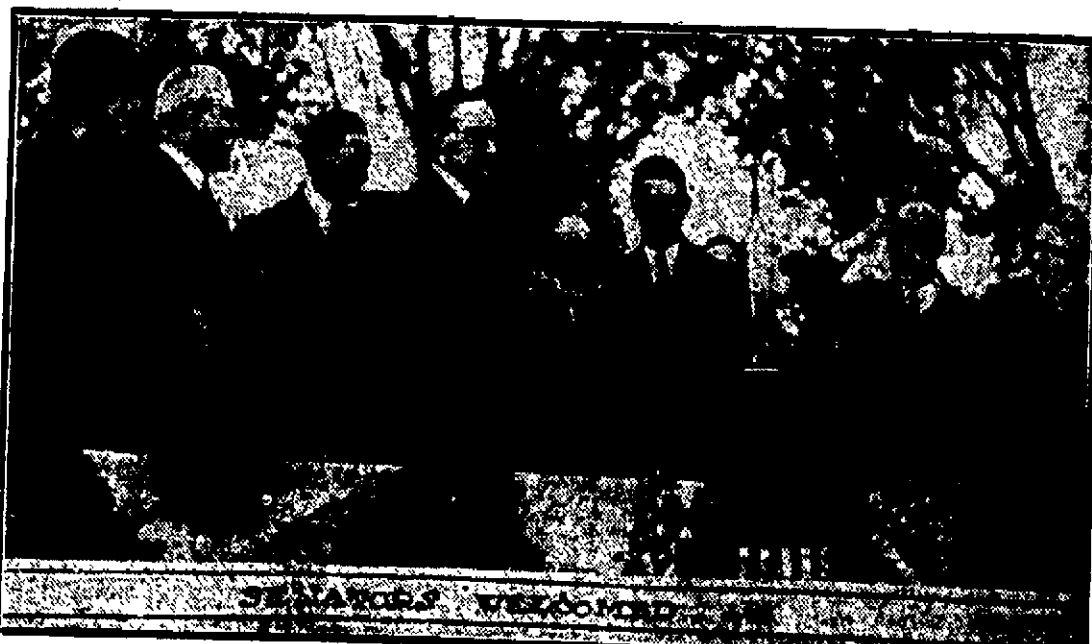

3.6 to 4.0 feet wide by 6.0 by 7.6 feet long	24.50
3.6 to 4.6 feet wide by 6.6 to 8.0 feet long	31.50
4.6 to 5.0 feet wide by 7.0 to 8.6 feet long	37.50
3.9 to 5.0 feet wide by 7.0 to 10.0 feet long	46.00

Think of getting a fine Oriental Rug, for less than you could get a good domestic rug of a corresponding size! Back of these rugs is the Arnold, Constable guarantee of quality and nearly a century old reputation for reliability. If you have always wanted an Oriental rug, or if you have room for more you will never again be able to purchase them more advantageously.

GOVERNMENT HALTS TO WELCOME CONQUERORS

Never before in baseball history have the wheels of the Federal Government been halted to give official recognition to athletes. But that is what took place when "Bucky" Harris, "kid" manager, took the address of welcome and all the players received gifts. President Coolidge is shown presenting a silver loving cup to Harris, while Postmaster-General New, Secretary Hughes, Walter Johnson, President Isaac Gans, of the Washington Chamber of Commerce, and Commissioner Rudolf look on.

STATE OF NEW YORK, SUPREME

COURT, County of Ulster.—In the Matter of the Voluntary Dissolution of BACHELLET MEDICAL APPLIANCE COMPANY, INC., a Domestic Corporation.

The undersigned hereby gives notice that he has been duly appointed permanent Receiver of Bachellet Medical Appliance Company, Inc., a domestic corporation, by a final order, dissolving this corporation, granted at a Special Term of the Supreme Court, held at the County Court House, in the City of Kingston, on the 12th day of July, 1924, and entered in the Clerk's Office of the County of Ulster, on the 14th day of July, 1924, and that he has duly qualified as such Receiver, and in pursuance of Section 250 of the General Corporation Law of the State of New York, he requires:

1. That all persons indebted to such corporation on or before the 17th day of November, 1924, at the offices of the Receiver, at No. 293 Wall Street, in the City of Kingston, shall deliver their respective accounts and demands to the Receiver on or before the 17th day of November, 1924, at the said office of said Receiver, at No. 293 Wall Street, Kingston, N. Y.

2. That all persons having in their possession any property or effects of such corporation deliver the same to said Receiver on or before the said time at the said place.

3. That the creditors of such corporation deliver their respective accounts and demands to the Receiver on or before the 17th day of November, 1924, at the said office of said Receiver, at No. 293 Wall Street, Kingston, N. Y.

4. That all persons holding any open or subsisting contract of such corporation present the same in writing and in detail to such Receiver at the said office of said Receiver, on the said 17th day of November, 1924.

Dated, Kingston, N. Y., October 2nd, 1924.

Value of Auto Club Membership

Secretary Meinhardt of Automobile Club of Ulster County Compiles Facts and Figures Interesting to Every Automobile Owner.

Dr. Meinhardt, secretary of the Automobile Club of Ulster county, has compiled a number of facts and figures showing the rapidly increasing taxation which is being placed on owners of automobiles and setting forth a number of the benefits derived from belonging to an automobile club or association. By the combining of automobile owners into clubs it has been possible to keep down increased taxation and fight vicious legislation throughout the country. The Automobile Club of Ulster County, as one of the units of the New York State Automobile Association has been successful in assisting in the work. More members and greater representation will add to the effectiveness of the Association. Automobile owners are urged to affiliate themselves with the club and by their increased membership assist in the work carried on annually by the State Association. Of the 12,000 cars in Ulster county less than 5 per cent of the owners are members of the club.

Approximately half a billion dollars are collected each year from motorists in the United States.

Secretary Meinhardt's Appeal.

In urging automobile owners to join the Ulster County Club Dr. Meinhardt, as secretary of the club, presents the following facts:

The tax load on the automobile is steadily growing more and more burdensome. Between them the federal and state governments are collecting annually almost half a billion dollars.

Gasoline Tax—The states are more and more resorting to the gasoline tax, and are raising large sums of money by it only the efforts of the automobile organizations are blocking it. Under the Federal Law there is a 3 per cent tax on trucks and a 5 per cent tax on other automobiles. Because more states are applying the gasoline tax and in some states raising the rates, this year the burden will be much larger than in 1923 when it totalled \$36,813,951. In the first 6 months of this year they totalled \$32,430,410. This means for the country the gasoline tax collections will exceed \$64,000,000. The states also collected about \$200,000,000 from registrations and probably 20 per cent more will be collected from this source before January 1st.

The Federal Tax this year on automobiles roughly will amount to about \$130,000,000. These figures do not take in account the fact that 36 states also have personal property tax on automobiles. Taking all taxes into account it will be seen that the automobile in this country is bearing a tax of about \$500,000,000, and the tendency is constantly to increase it, due partly to the insistence of the politicians of using the automobile as a source of revenue because the automobilist is easy and also the old argument that the automobile is a luxury. Today the automobile is a necessity. Business cannot be conducted without it, especially farming.

The Automobile Club of Ulster County with over a hundred other clubs making up the New York State Automobile Association have kept you from having a personal property tax, have kept your registration fee lower, have kept far prevented a gasoline tax being added to your present tax, have helped to defeat legislation that if passed would make the taxation almost prohibitive.

Do you want more taxation? If not join your local club. 12,000 cars in Ulster county with less than 5 per cent members of the club. Larger membership is the only protection against increased taxation.

Brother motorist it's up to you.

SOUTH ROUNDOUT.

South Rondout, Oct. 4.—The official board held a meeting after the prayer meeting on Thursday night.

Mr. and Mrs. Quackenbush and daughters have returned to their home in Watervliet, N. Y., after spending some time with Mr. and Mrs. Clifford Hicks.

Mr. and Mrs. Edward Haines of Haibes Falls, called at their home here on Sunday.

Miss Antoinette Hyde of New York, spent Sunday with her parents, Mr. and Mrs. Liberty Hyde.

Mr. and Mrs. John Wilson and daughter Doris, Mrs. Charles Becker, Mrs. Fred Becker and son Wallace, motored to Hoboken on Sunday and spent Monday with Mr. and Mrs. Frank Spinneweber.

Fred Fox of Hoboken spent Sunday with Mr. and Mrs. Charles Becker.

Mr. and Mrs. Thomas Morrissey of Kingston, spent Sunday with her parents, Mr. and Mrs. Knud Olsen.

Mr. and Mrs. Joseph Snyder and Emma Van Vliet, Henry Pardee and Mrs. Lewis Pardee of Castleton, motored around the dam on Thursday.

Mr. and Mrs. Nathan Cole and daughters, Antoinette and Anna, motored to Atlantic City on Monday to spend a week.

Mrs. Margaret Hyatt has returned home from Atlantic City, where she spent some time with her son Arthur, and daughter, Mrs. William Morsehead.

Mr. and Mrs. Clarence Hyde of Kingston, spent Sunday with Mr. and Mrs. Liberty Hyde.

Mr. and Mrs. James Brice of West New York, are moving in Joseph Solnet's house on Front street.

Mrs. Lewis Pardee of Castleton, has been visiting her sister, Mrs. Joseph Snyder.

Henry Pardee of Castleton, spent Thursday with Mr. and Mrs. Joseph Snyder.

Mrs. Ella Fairbrother and Mr. and Mrs. Arthur Shellington spent Sunday with Mr. and Mrs. Joseph Snyder.

Mrs. Jessie Couvant of Pennsylvania, was visiting her sister, Mrs. Joseph Snyder.

Mr. and Mrs. John Snyder spent Sunday with Mr. and Mrs. Nicholas Bodie at Kingston.

TODAY WE CELEBRATE

FIRST ENGLISH BANK.

The first bank in England was established by Francis Child, a goldsmith, of London, who died 211 years ago today. This pioneer financial institution was opened in 1693, and a number of rival goldsmiths soon opened similar establishments. The Mint in the Tower of London had been the depository for the cash of merchants, until King Charles I seized the money as a "loan." Then the traders began to deposit their cash with the goldsmiths in Lombard street. The first bank in the world was established in Italy, in 802, by the Lombard Jews. The oldest existing bank is the Bank of Barcelona, Spain, founded in 1401. The Bank of England was established in 1694.

COLORADO.

The first governor of Colorado was William Gilpin, who was born October 4, 1822, and appointed executive of the newly created territory in 1861, during the administration of "Honest Abe."

It was Gilpin who christened the future Centennial State, which was formed from six several contiguous neighbors. In 1818 a U. S. Army officer reported that the Colorado of the future was "impossible of cultivation and uninhabitable by white men." This discovery of gold in 1852 attracted 400 pioneers. In 1858 Denver was founded. The name of the state is taken from the Spanish word "colored" first given to the Colorado river on account of the red color of its waters. Gilpin, though his rule was brief, saved the Territory to the Union cause.

CECILIA DE RYGEWAY.

Long protracted fasts have been essayed by various men and women for many hundreds of years. One of the first instances on record is that of Cecilia, wife of John de Rygeway, who lived in the reign of King Edward III. She was charged with the murder of her husband and was put into Nottingham Gaol, where she remained mute and refused food and drink for a period of forty days, when her case was called to the attention of the King, who moved by pity and for the glory of God, and the blessed Virgin, granted the woman a pardon. Another case of fasting, this one because food was repulsive was that of the young French girl, Christina Michelot, who in 1751 was attacked with a fever, after which she absolutely refused food. She lived on water from November 1751 to July 1755 she did not touch a bit of solid food. After this period her appetite seemed to return and was normal for the rest of her life.

OUR DAILY PATTERN.

Infant's Short Clothes Outfit.

10 Practical Patterns of Baby Garments.

3125. Composed of a Yoke Dress to be finished with long or short sleeves. A simple double breasted coat with round collar and bishop sleeve, a cap in Dutch style, a night dress, a petticoat with added waist, a feeding apron, drawers, rompers and a play dress. Lawn, muslin, gingham or chambray, also flannel or may be used for the dresses and rompers. The coat is good for all cloaking materials. The cap will develop nicely in fur, velvet, corduroy, cloth, silk or lawn. The night gown, underwaist and petticoat in flannel, flannelized, muslin or cambric. The feeding apron in jean, toweling or oilcloth. The drawers in cambric or longcloth.

The pattern is cut in one size. It requires of 36 inch material.

A Yoke Dress 1 1/4 yard
B Coat 1 3/4 yard
C Bonnet 1/2 yard
D Nightdress 1 1/2 yard
E Petticoat 1/2 yard
F Feeding Apron 1/2 yard
G Drawers 1/2 yard
H Rompers 1 1/2 yard
I Underwaist 1/2 yard
K Play Dress 1 3/4 yard

A pattern of this illustration mailed to any address on receipt of 20c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice.

Send 15c in coin or stamps to The Freeman for our up-to-date fall and winter 1924-1925 Book of Fashions, showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

Do you want gasoline tax added to your tax? 28 states have tax, 35 added to present tax. Join Auto Club Ulster Co., only way to stop it. \$5.00 now to Dec. 31, 1925.—Advertisement.

SMART COATS INTRODUCE THE FLARE.

(By Eleanor Gunn.)

The flared coat is launched, and has the weight of authority behind it. Straightlines are doomed after this season, say most fashion experts after viewing the selections made by the smartest women. They seem particularly intrigued by the flare in coats, tunics, and frocks, adhering more to the slim line, but coats, es-

pecially when their hemline is accentuated by a wide fur border, show a decided tendency to flare.

Much of the fur used, contrasts rather than matches. Brown and gray on black is very strong, but all coats are not black by any means. There is still a penchant for red and brick coat colorings, and in sports models, many blocks, stripes and plaids are used.

The coats illustrated are typical of those who aim to produce the desired ensemble impression. The first

makes use of a fur fabrics—broadtail cloth trimmed with chinchilla squirrel, while the second one has silver beaver on dr-tice green, the side panels having unpressed pleats. Dyed fitch is lavishly applied to a formal coat of oxblood cloth which has among its several interesting features, barrel cuffs of the fur. While coats show a decided tendency to flare, they incline to the snug hipline, and bow to the edict of short skirts.

(Copyright, 1924, Fairchild.)

Should Attract Fishermen

The Nile has a greater variety of fish than any other river in the world. An expedition sent by the British museum brought back 8,000 specimens.

Sometimes He's Sure of It

There is no leisure class in America, but at times the boss is inclined to think there is.—Baltimore Evening Sun.

Good Will Best In Auto Traffic

Pride Tells National Safety Council
That Harmony and Understanding
Will Lower Accident Rate—One
Motor Fatality Every Four Million
Miles.

By Telegram to The Freeman.

Louisville, Ky., Oct. 4.—"Good will has far-reaching possibilities as a means for dealing with traffic, in the opinion of George H. Pride, of the traffic planning and safety committee of the National Automobile Chamber of Commerce, speaking for the convention of the National Safety Council here.

"Safe operation of traffic," said Mr. Pride, "depends upon the understanding of millions of individuals. We say that corrective measures must be determined by the knowledge of the factors causing accidents. This is true; but the measures can be made effective only through the intelligence and cooperation of the great mass of citizens.

"This is not a matter of action by any class, but by the people as a whole, because virtually every one is at times a motorist and at times a pedestrian.

"Most of the automobile driving is careful and considerate. There were approximately 16,000 motor fatalities last year. The average annual mileage of a motor vehicle is estimated at 5,000, applying this to the 15,000,000 cars and trucks registered, gives a total of 75,000,000,000 car miles. From these figures, it appears that there is a motor fatality on the average for every 4,000,000 miles of car driving."

35 Apply for Bus Franchises.

Thirty-five applications for bus franchises are before the Board of Transportation of New York city. These include petitions from a number of independent operators, and also from our big corporations; The Fifth Avenue Coach Company, The Third Avenue Railroad Company, The Brooklyn-Manhattan Transit Company and the Service Bus Corporation.

The Fifth Avenue Company proposes operation of 116 miles of new motor coach lines, over 35 new routes, increasing by about 600 the number of busses it would have in service, which would then number well over 1,000.

The Third Avenue Railway Company and the B. M. T. Company both propose to add bus lines as feeders to their surface and rapid transit lines.

The Service Bus Corporation has been organized to put into operation the Tillings-Stevens gas-electric bus, about 1,200 of which are now used in England, mostly in London. It is asking a franchise to operate over 125 miles of New York city streets.

Take Ri-an Tablets for a cold in your head.—Advertisement.

CARELESSNESS AT GRADE CROSSINGS

Many Motorists Approach
Track at Reckless Speed
Without Looking.

(By ERWIN GREER, President Greer College of Automotive Engineering, Chicago.)

"Cheerful Thought for Today": A safety-first bulletin informs us that eight thousand motorists will be killed during 1924 by steam and electric trains, not to mention some five thousand more to be struck down on the highways.

Investigation shows that one motorist out of every three is careless at grade crossings; approaching the tracks at a reckless speed and without taking due notice of oncoming trains. On one railroad alone during the past three years, 1,600 motor cars and trucks were wrecked at grade crossings. In 490 cases, or more than 20 per cent, the motorists deliberately ran into trains. In 122 instances motor cars plunged through the crossing gates. Nine crossing flagmen were struck down.

Wrecked by Trains.
In 970 cases in which motor cars were wrecked by trains 136 persons were killed and 405 were injured. In 490 cases automobiles stalled on grade crossings were demolished. Forty-three cars actually collided with the danger signals.

Nothing—no psychological test of character—analysis—reveals one's true inwardness more quickly and with greater certainty than the motor car.

Few Survive Trial.
What a difference it makes: And how few survive the trial which proclaims gentlemen or roving inconsiderates who, enthroned behind the steering wheel and feeling an eager engine beneath their feet become inebriated with speed, poisoned with the mania of haste, stripped of the thin veneer of everyday courtesy and civilized conduct.

Nothing will make the automaton a more sincere convert to the Golden Rule than the exhibition of uniform courtesy on the part of his brother motorist. This more than anything else will reduce automobile slaughter to a minimum.

Let's try it, anyhow. It costs nothing!

Steel Rack for Lumber Trucks Big Convenience

Trucks used for carrying lumber can be made much more useful by providing a steel rack in front of the radiator. By this means very long planks and timbers can be carried without extending behind the truck farther than a normal load. The rack is made of square iron rod and is bolted directly to the truck frame. If the headlights interfere with the rack, they may be removed and brazed to the rack itself. This arrangement has been found entirely satisfactory.—Popular Mechanics Magazine.

Why a Wheel Sometimes Is Mysteriously Locked

The owner who is not vigilant and neglects the parts he does not see or which do not give trouble usually finds some time that upon starting one of the wheels becomes locked even though the brake pedal and lever are free. This is due to the fact that there is so much play in the brake linkage that when the hand brake lever is released it merely takes up the play, leaving the unbalanced mechanism set in holding position. This happened recently and a hammer had to be used to loosen the brake mechanism.

Weight of a Bump

Every moving and vital part of a car receives the impact of a blow of from nine to ten tons force every time the car hits a stone or bad bump when traveling at the rate of 25 miles an hour. This force increases with the speed. If you want your car to last longer, avoid the bumps.

Safety in a Nutshell

A fifteen-year-old girl of Detroit has written these slogans for automobilists:

"Drive right and more pedestrians will be left."

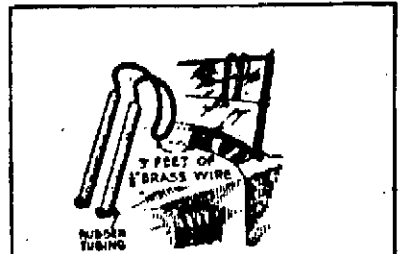

"Watch your step on it."

"Taking the other fellow's dust is better than to dust returneth."

"Six feet have awaited many a driver who wouldn't give an inch."—Boston Transcript.

Detachable Windshield Cleaner Is Easily Made

After barely avoiding a head-on collision because of a wet windshield, I was presented with the windshield cleaner illustrated, by a mechanic who made it on the spot. He used two 10-inch lengths of rubber tubing placed over the ends of a 3-foot length of

Only Brass Wire and Rubber Tubing Are Required.

stiff 1/4-inch brass wire, bent as shown, so that the rubbers were about 4 inches apart.

While not an enameled and polished article, the cleaner serves its purpose satisfactorily, is easily detachable, and can be replaced at very little expense when lost.—F. L. G. in Popular Science Monthly.

Motortrucks Bring Bulk of Cities' Milk Supply

The motortruck is now the most important agency for transporting milk from producer to city distributor, according to the bureau of public roads of the United States Department of Agriculture. The bureau has recently completed a survey of milk transportation for eight large cities and has found that the motortruck, which first entered the field in 1913, when most of the milk was transported by rail and the remaining portion by wagon, is now the major factor in the field.

Of the total amount of milk delivered to the cities investigated the amounts delivered by motortruck were as follows: Baltimore, 45 per cent; Philadelphia, 20 per cent; Cincinnati, 97 per cent; Detroit, 88 per cent; Milwaukee, 87 per cent; St. Paul and Minneapolis, 94 per cent.

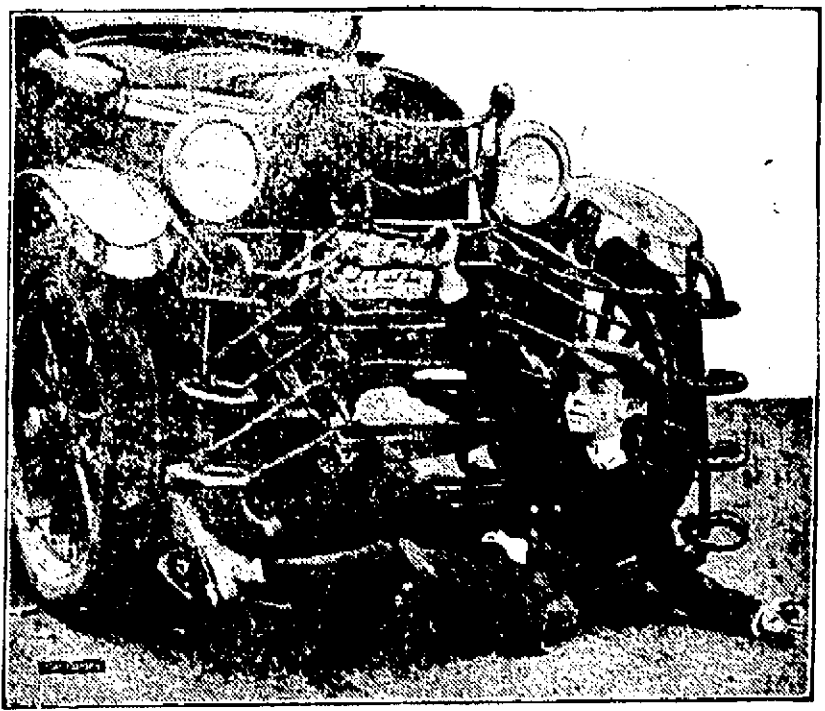

This form of transportation has been of great benefit in developing new milk-producing territory for growing cities and has given the farmers a more satisfactory means of delivering their product. The milk moves directly from the farmer's gate to the city's bottling plant instead of being delivered to the steam or electric railroad station, hauled by rail, and then delivered from the city terminal.

In the Baltimore area a farmers' co-operative trucking association has been organized with a city warehouse, where the milk trucks call for a return load of farmers' supplies.

Declutching on Corners Is Beneficial to Tires

While it is a wise precaution to throw out the clutch when rounding a sharp corner, it also has a beneficial effect upon the tires. When the car tends to skid, due to its deflection from a straight course, a cross strain is brought to bear on the tire tread, which is directly proportional to the weight of the vehicle and the radius of the curve and proportional to the square of its velocity. If the power is applied in rounding a curve the tendency to rip off the tires is further aggravated by the backward drag due to traction. If the clutch is released, however, that factor is eliminated and the strain is thereby reduced.

NEW LIFE-SAVING AUTOMOBILE DEVICE

A new life saving device that may be easily attached to the front of an automobile, is the invention of two Bostonians, Messrs. Whitaker and Asmer. The device is a safety fender, which may be lifted when the car is to be cranked. This device prevents persons, hit by the car, from falling under the wheels, as it is so designed as to pick the person up as he falls.

PROMINENT IN THE NEWS OF THE DAY

Above: DAN JOHNSON & BARNEY DREYFUS
Below: WALTER SMITH & GROVER BERGDOLL

Because "Jimmy" O'Connell, centre fielder of the New York Giants, confessed he tried to bribe Heinie Sand, shortstop of the Philadelphia Nationals, to "throw" a game and clinch the pennant for the Giants, Dan B. Johnson, president of the American League, and Barney Dreyfus, owner of the Pittsburgh Pirates, demanded that the World Series with Washington be called off. Grover Cleveland Bergdoll, draft dodger, who escaped from a Federal prison when he was permitted to go to Maryland to seek gold he had "buried" there, has been missing from his German haunts since April 6, and his friends declare he has returned to America and is in hiding. The watchfulness of Governor Alfred E. Smith probably averted another calamity such as the death of young Calvin Coolidge, Jr. Governor Smith discovered that his youngest son, Walter, was suffering from a stiff arm. Physicians found serious blood poisoning, and an immediate operation saved the lad's life.

FOURTH-CLASS POSTMASTER EXAMINATION NOVEMBER 8

The United States Civil Service Commission has announced an examination to be held in this city on November 8, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class post master at Esopus and other vacancies that may occur at that office. The compensation of the postmaster at this

office was \$870 for the last fiscal year.

Applicants must have reached their twenty-first birthday and must reside within the territory supplied by the post office for which the examination is announced. Application blanks and full information can be secured from the postmaster at the place of vacancy or from the United States Civil Service Commission, Washington, D. C.

U. S. PRINCESS SUES AND DUEL LOOMS

PRINCE & PRINCESS PIGNATELLI

Princess Ludovica Pignatelli d'Aragon, formerly Miss Ruth M. Waters, of Little Silver, N. J., has left her illustrious Roman husband, finest swordsman in all Europe, and will secure a Paris divorce to marry Andrew Reid, Baltimore society man. In an impassioned scene in the Biarritz Casino, the Prince challenged Reid to a duel, giving him the customary two weeks to answer. Pignatelli is said to have fought thirty sword duels, in all of which he was victor. Reid served in the French aviation corps until America entered the World War, when he joined the American air forces.

All Cooks Look Alike

To the hungry man, but what a sad disappointment when the "kitchen queen" quits suddenly and the table lacks anything but satisfying to a zealous appetite. When in doubt as to what to do, use The Freeman's "Help Wanted" Cent-a-Word Department.

Financial and Commercial

By Telegram to The Freeman.
New York, Oct. 4.—The stock market was a dull and irregular affair in the early trading today, and inclined to continue the decline in stock prices which featured the close of the previous session. The industrial leaders were all down from a fraction to a full point at the opening, while railroad shares were mixed in their movements, recoveries taking place in many of the active stocks.

Selling pressure relaxed before the end of the first hour, however. Good buying of industrials was encouraged by the favorable tenor of the week-end business and industrial reports.

An upward trend in prices of the industrial leaders in the second hour strengthened the whole market, and a moderate rally took place. American Can advanced to 131 1/4. U. S. Steel, Baldwin, American Woolen, General Electric, Standard Oil of New Jersey were in the forefront of the advance and railroad stocks were stimulated by the accumulation of investment buying.

Cotton also was favorably affected by the cheerful week-end textile news and sold up nearly \$2 a bale, grain prices were steady; bonds sluggish but firm, with slightly lower prices for Liberty and Treasury bonds.

To Organize Bowling League

The fall organization meeting of the Mercantile Bowling League will be held at the Y. M. C. A. on Friday evening, October 10, at 7:15 o'clock. This league is open to all mercantile establishments in the city and all concerns are invited to have a representative present at the meeting and enter a team.

Teams will be composed of two men each and under the present rules a concern may enter as many teams as they wish.

Prizes in the form of cups will be awarded by the Y. M. C. A. to the team winning the league, and special prizes will be awarded to the individual bowlers.

It is hoped that one organization meeting will be all that is needed for this year. It will greatly help the physical director in planning for the meeting of all teams wishing to enter will call him at the Y. M. C. A. or before October 9.

Women Who Give Rest Always Sought After

Discussing half a dozen women friends a few days ago, guests at a little dinner party were surprised to discover the popularity of a woman whom none had believed to have an original personality.

Pleasant, kind, lively, interesting she undoubtedly is, but it was a man who explained the attraction which makes her companionship desired by all her friends.

"She gives rest," he said. "And rest is the greatest gift a woman has to give. No one in Helen's presence can long be conscious of life's enormous disarrays; she heals. Her very presence is harmonious, she gives a sense of serenity to the restless. That is why everyone loves her."

Very few women are able to bestow the gift of peace on those whom they meet in daily life, says the London Mail. No woman whose mind is restless, who has not accepted with graciousness the reconciliations between the real and the ideal, has power to give rest. For this power does not come from anything as superficial as the pose of angelic ease, nor does it belong to the quiet woman who so often is also the full woman.

Habits of Migration

Forced on Bird Life

Ages ago the United States and Canada swarmed with nonmigrating bird life, long before the arctic ice melts, advancing south during the glacial era, rendered uninhabitable the northern half of the continent.

As the ice approached very gradually, now and then receding, enforced retreats and absences—at first only a short distance and a brief time—increased both in distance and duration until migration became an integral part of the being of the bird.

As the ice advanced southward the birds were continually shortened and the fall retreat to a suitable winter home lengthened in proportion until the glacial period birds were, for most part, confined to middle South America.

But the habit of migration had been formed, and when the ice receded to its present position the birds followed it northward and in time established their present diversified migration routes.—Exchange.

Sensibility and Suffering

Most Dangerous Motoring Month

October Also Most Popular Month For Pleasure Riders Who Forget Others On Road Are Equally As Forgetful And Careless.

Washington, D. C., October 4.—Motorists planning to tour extensively in October are warned against certain motoring hazards peculiar to this month of the year in a bulletin just sent by the American Automobile Association to its affiliated clubs throughout the country.

According to the warning, October is the most popular motoring month of the year and, as such, is often the most dangerous. It is pointed out that the scenic attractions and the stimulation offered by the weather frequently leads the driver to forget some of the fundamentals of his safety in handling the car.

Thomas P. Henry, president of the A. A. A., says that there are a maximum number of cars on the highways during October and that each motorist has just that many more cars to look out for, thus demonstrating the necessity for greatest precaution at the time of greatest enjoyment of the car.

Mr. Henry points to the survey made by the United States Bureau of Public Roads covering conditions on Connecticut highways as typical of conditions generally. The Connecticut survey showed that the peak month for traffic was October when the main arteries were crowded with local motorists out for recreation and with business cars.

"October is to be taken seriously for other reasons as well," Mr. Henry explains in the A. A. A. bulletin. "This is the time of year when wet leaves on the highways present a constant hazard to motorists who fail to keep their minds on the business of driving safely. Leaf skidding is particularly dangerous in the early morning when the sun has not had an opportunity to dry out the dew that is being held under the leaves."

"It is fine to get up early on an October morning, dump into the car and enjoy the advantages of an early start on the day's journey, but it is hazardous to imagine that you are the only party to get an early start. Many accidents are the direct result of the early motorist's imagining that he has the whole road to himself."

"The days being shorter in October the tourist is likely to have many miles of his run in the dark which, in itself, is a matter calling for precaution. Many persons who forget that summer is waning in October continue to figure that they can travel just as many miles by daylight in October as in August. The result is they frequently find it necessary to blunder their way along over strange roads in the dark."

"Cold days in October, and particularly cold nights, call for the rain curtains in the case of open cars. Frequently the driver is not accustomed to driving closed in, and unless he takes precautions against being fooled by 'blind spots' in the

Public Service Clearing House

By Telegram to The Freeman.
Syracuse, N. Y., Oct. 4.—The service bulletin of the New York State College of Forestry, Syracuse University, has grown more useful each year since its establishment although it is serving a purpose in a new field.

The bulletin is a circulating sales medium intended to keep owners of small stands of timber, quantities of logs, lumber and small dimension stuff who cannot afford to find a market through the usual channels of advertising and solicitation to sell their product. The bulletin places those in need of such supplies in touch with persons who have the material to sell. These parties are distributed over a wide area but all find a common clearing house in the service bulletin. In order to render only needed service items are refused from lumber companies and other organizations that already have means of selling their products unless the item is of an unusual nature.

Advice on reforestation, management of woodlots and the handling and marketing of lumber is given without charge to users of the bulletin.

During the past twelve months the college has issued nine Wood Utilization Service Bulletins containing 229 items, seventy-two of which were "Wanted" and the remainder being "For Sale."

About 16,000 copies of the bulletin were sent to our mailing list which brought a return of 1,880 items inquiries from fifty counties, nine surrounding states and Canada. The leading counties in order of the number of items were: Chenango, twenty-three items; Greater New York, eighteen items; Erie, fifteen items; St. Lawrence, ten items; Essex, eight items and Albany, Oneida, Onondaga, Oswego and Warren, eight items each. Of the 229 items twenty were from the surrounding "Tales and Canada."

The "Wanted" items included 1,920,000 feet of stumpage; 2,300,000 feet of logs; 10,630,000 feet of lumber; sixty-three cars of small dimension stock and large quantities of fuel wood, ties, poles, mine props and hemlock bark. Small dimension stock reaches the problem of utilizing waste wood which is of great importance in forest conservation as at least 60 per cent of all timber cut is wasted. Sixty-three carloads represent 1,000,000 board feet of wood.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

The "For Sale" items included 608,940,000 feet of stumpage; 1,760, feet of logs; 15,710,000 feet of lumber; fifty-eight cars of small dimension stock and large quantities of fuel wood, poles, posts, mine props, ties, pulpwood, hemlock bark, Christmas trees and sawdust; and a few business opportunities in lumber yards, mills and wood-working factories.

Conscientious Marshal

Edward B. Ishem, for 11 years city marshal of Porterville, Cal., and chief traffic officer, had the distinction of arresting himself. He backed his car into the auto driven by Mrs. Wood Sandridge. Some damage was done. The marshal then proceeded to inform himself, "Your fault, and you will have to pay the damages or go to the city hall with me." He paid, then promised himself that he would be more careful in the future.

Frozen Meat for France

With a view to reducing the cost of living, the city of Strasbourg, France, recently issued a circular to the master butchers of the city calling upon them to bring to the attention of the people the desirability of frozen meat. If this plan fails the city itself will open a number of shops. The few shops that have been handling this kind of meat report an increased volume of business since the publicity campaign.

The News

"Well—p'tu!—no," said Gap Johnson of Rumpus Ridge in reply to the inquiry of the able editor of the Twinville Torch of Liberty and Tocsin of the Times. "I don't believe there's nuth'n' special in the way of news been going on out my way. Come to think, though, at the dance at my house tuther night the floor broke down and killed a dog that had crawled under the house."

"Ah! Your dog?" asked the scribe. "Nope; belonged to Newt Strodder, over beyond Slippery Slap. Newt cussed and cut up so much about it—claimed he had only nine dogs left—that before the evening was over I had to shoot him in the leg to give him something else to think about. No, I don't know no pertickler news."—Kansas City Star.

Florida Keys Railroad

Constructor of the 156 miles of railroad over the Florida keys, from Miami to Key West, cost \$150,000 a mile.

Rand Mfg Co. To Reopen Soon

The Rand Manufacturing Company located on Livingston street, Saugerties, which was closed recently owing to a fire which destroyed a great amount of materials and machinery, will reopen for business in the near future, the raw materials already having arrived at Saugerties. The company is owned by Max Hazen of this city.

At The Theatre.

Corse Payton and his wonderful supporting company will stage "Over the Hills to the Poor House" at the Orpheum Theater tonight. The playlet is an adaptation from the picture that made such a tremendous hit. Larry Semon in "The Girl in the Limousine" is the feature picture. The Dempsey-Gibbons fight is the other attraction.

So great has been the popular demand for a repeat of Hoyt's Musical Revue, which played here last week, that the management of the Orpheum Theater has succeeded in contracting them for a return engagement at that theater for the week of October 6. They are to present three entirely new bills. All new scenery and costumes and an entire change of specialties go with each show. Mr. Williams and Mr. Rubin, the two comedians, will again be present.

At the Auditorium tonight William Fox presents Buck Jones in a great western drama, "Not a Drum Was Heard." Here's a yarn of a girl and two men who released all the passions of the roaring west when it roared in the haze of black powder.

DIED.

BRINK—On October 2, 1924, Dr. William Brink.

Funeral at the residence of his mother, James O. Brink, Stone Ridge, on Sunday, October 6, at 2 p. m. Relatives and friends invited. Interment in the Marlborough Cemetery.

DENNIS—At Southport, Conn., Saturday, October 4, 1924, Mary Shafer, wife of Leonidas Dennis and daughter of the late Mr. and Mrs. Colonel Shafer of this city.

Funeral at the home of her brother, William C. Shafer, 117 Albany avenue, this city, on Tuesday, October 7, at 2:30 p. m. Relatives and friends are invited. Interment in Wiltwyck Cemetery.

WEEKS—In this city, October 3rd, 1924, Lucinda, wife of the late Henry Weeks.

Funeral at residence, 52 Clinton avenue, on Monday, October 6th, at 2:30 p. m. Relatives and friends are invited. Interment in Wiltwyck Cemetery.

In memory of our dear husband and daddy, Ward Christiana, who died October 4, 1923.

We miss thee from our home, dear daddy.

We miss thee from thy place, A shadow o'er our life is cast, We miss the sunshine of thy face, We miss thy kind and willing hand, Thy fond and earnest care, Our home is dark without thee—We miss thee everywhere.

TO PRESENT FLAG TO FLATBUSH SCHOOL.

On Sunday afternoon at 3:30 the officers and members of Charles De Witt Council, No. 91, J. O. U. A. M., will present an American flag to the new public school at Flatbush. All members and friends of the order are requested to be at the lodge rooms at 3 o'clock. Members having autos are requested to bring them. The speakers will be the Rev. R. A. Greenwell, Roscoe Irwin and Oliver C. Stibbs of Poughkeepsie, N. Y.

THE JOINERS.

News of Interest to Members of Fraternal Organizations.

The second degree will be conferred on a class of candidates Monday evening by Roundout Lodge No. 343, F. & A. M.

Cloin Won on Foul.

By Telegraph to The Freeman. Duluth, Minn., Oct. 4.—Jole Cloin, Milwaukee, won on a foul in the third round of a scheduled ten round bout here last night with Law Snyder of New York. Cloin weighed 126 and Snyder 127½.

About the Folks

James J. Murphy, the congenial deputy city clerk, is spending the week end in New York city.

Charles B. Westbrook of New York city, is visiting relatives in town. He was a former resident here.

Mrs. Archie McLaughlin and Miss Alice McLaughlin of Sleightsburg Heights are visiting in New York city.

Mrs. Thomas J. Dempsey, Jr., and daughters, Jane and Mary, of Brooklyn, are visiting her mother, Mrs. Thomas McNally, of East Kingston.

Capt. Lewis Hazard of Jersey City was in Kingston Thursday to attend the funeral of his uncle, Fred Hazard.

The birth of a son, Arthur, Jr., to Mr. and Mrs. Arthur J. Olivet of No. 96 Prince street, at the Benedictine Hospital, has been reported.

Miss Hattie H. Safford of Wall street and Miss Rachel Mericle of Clinton avenue, who have been spending September at Richmond Hills, L. I., have returned home.

Mrs. Elijah Bovee of First street, Saugerties, is seriously ill at the home of her daughter, Mrs. Charles T. Sickles. Little hope is being held out for her recovery.

Theodore Brink and sister of Lake Katrine and DeWitt Ostrander and wife of Clintonville, are registered at Hotel Statler, Buffalo, N. Y., where they are in attendance at the annual convention of New York State Historical Association.

GOVERNOR WILL RECEIVE NOTIFICATION TONIGHT.

By Telegraph to The Freeman. Albany, N. Y., Oct. 4.—Governor Alfred E. Smith completed work shortly before noon today on the speech he will deliver at Schenectady tonight when he is formally notified of his renomination for governor.

The ceremony will open at 9 o'clock and will be broadcast by radio by the General Electric Station WGY.

William Church Osborn will preside. John J. Sullivan, chairman of the Erie county Democratic committee, will give the notification speech.

Opening Prices.

Wheat—Dec., 145½; May, 149½ @ ½; Corn, Dec., 109 @ 110; May, 112½; July, 113 @ ¼.

Oats—Dec., 56½ @ ¼; May, 61½ @ ¼.

Calcium in Foods

Calcium is found in the following foods: Cauliflower, celery, buttermilk, spinach, cheese, milk, cabbage, string beans, carrots, blackberries, strawberries, onions, figs, tomatoes, lemon juice, dried beans, eggs, beef, fresh peas, oatmeal, prunes, raisins, potatoes, whole-wheat bread, white bread, lean beef and cornmeal. Calcium helps to build bones and teeth.

Swamp Lily

The swamp lily is not one of the water lily family. It is of the Amarillidaceae family and is related to the narcissus, the snowdrop and the century plant. While the water lily or pond lily, as it is sometimes called, grows in nearly all parts of the United States, the swamp lily is found only in the southern states.

Society Notes

Van Deusen-Gessex.

Irving Van Deusen of 477 Abel street and Miss Stella Gessex of 176 Wilbur avenue were united in marriage on September 17, by the Rev. William J. Jordan of the Church of the Holy Name in Wilbur. They were attended by Stanley Gessex and Miss Mae Keating.

A Birthday Soiree.

A birthday surprise party was held Wednesday evening in honor of Mrs. Chester Tyneson at the home of her daughter, Mrs. George Shafer, West Bridge street, Saugerties. About thirty relatives and friends were present and completely surprised Mrs. Tyneson. Many useful and pretty gifts were presented her. Dancing and cards were a feature of the evening, after which an elaborate dinner was served. Round and square dances were indulged in until a late hour, the music being furnished by a local orchestra.

Shower for Miss Conlon.

A delightful miscellaneous shower was tendered Miss Theresa B. Conlon, a member of the New York Telephone Company force, at the home of her aunt, Mrs. Anne Shortell, 369 Washington avenue on Thursday evening. The shower was given by some fifty young ladies, Miss Conlon's associates in business in honor of her approaching marriage to Clarence J. Kuhn of Erie, Penn. The color scheme of the decorations was orchid and yellow, the decorations being very artistic. Miss Conlon was the recipient of a great many beautiful and valued gifts from her friends. During the evening delicious refreshments were served, and games and dancing and fellowship songs by the girls were enjoyed.

Pampinella-Cesar.

Miss Frances Cesar, daughter of Mr. and Mrs. M. A. Cesar of Highland and Brooklyn, and Anthony J. Pampinella, son of Mr. and Mrs. Joseph Pampinella of Highland, were married at St. Augustine Church, Highland, on September 28, at 9 o'clock. Rev. Father Tighe of Milton, New York, officiated. There were three hundred guests present. The bride wore a gown of white beaded georgette and wore an embroidered veil imported from Belgium. She carried a shower bouquet of white roses and orange blossoms. Miss Marie Cesar was the maid-of-honor and was gown in peach georgette, trimmed with beads and hand painted flowers, and wore a silver head-band. Miss Cesar carried a shower bouquet of tea roses. The bridesmaids were Miss Edna Cesar, a sister of the bride, who was gown in pink taffeta. Miss Ellen Lanese, a cousin of the bride, of Brooklyn, gown in salmon colored georgette. Miss Mary Rizzo who wore a blue georgette dress, and Miss Josephine Pampinella, a niece of the bridegroom, who wore a blue and peach colored georgette. They all wore silver ornaments in their hair and carried pink roses. Nicholas Siragusa of New York city acted as best man and the ushers were Michael Lanese, of Brooklyn, a cousin of the bride; Mr. Julius of New York city, Joseph Pampinella, a nephew of the bridegroom, and Anthony Aiello. Joseph Pampinella, a nephew of the bridegroom, acted as page and the flower girl was Winifred Pampinella, niece of the groom. The bride was given in marriage by her father, and the Poughkeepsie Five orchestra of that city played the bridal chorus from Lohengrin. After the ceremony a reception was held at Cesar's Casino, Highland, from 5 to 11 o'clock. The decorations were palms and flowers. Mr. and Mrs. Pampinella left for a wedding trip to Washington, D. C., Virginia and points of interest as far as Florida. Upon their return they will reside in Highland. Gift to the maid-of-honor was a pearl necklace and to the best man a diamond stick pin. The bride attended the Elementary School P. S. 92, in Brooklyn and the Ellsworth Business School in Flatbush, also Erasmus High School in Flatbush. The bridegroom is a graduate of St. Stephen's in New York city.

House Paint Office Banned

Licensed paint was first made in New York in 1715. Pigments were all imported. In New England there was much prejudice against the use of paint, it being considered a sign of worldliness and vanity.

In 1690 a clergyman in Charlestown, Mass., was haled before the council for having the interior of his house painted, and during the ensuing 40 years there was not a painter in all New England. Still, by 1750 the use of paint had become general throughout the country, the white house with green blinds for many years being the common form of exterior painting in all parts of the United States. This manner of painting frame houses is today enjoying popularity. In fact, in some quarters this color scheme is criticised as lacking individuality.

Scored on the Orator

The atmosphere was getting slightly heated in the village hall, where the candidate for office was addressing a meeting of those who he hoped would vote for him at the next election.

One man in the crowd was determined not to give the aspirant a moment's peace, and he didn't. At last the speaker lost his last remnant of patience and, shaking his fist at the heckler, he shouted:

"I look upon you, sir as a confounded rascal."

"Quite," replied the interrupter, with a sweet smile. "You are perfectly at liberty to look upon me in any character you desire to assume."

BUSINESS NOTICES

Alfred L. Van Valkenburg, collector of School Taxes for District No. 8, Town of Ulster, is ready to receive taxes for next 30 days at 1%. After that at 5% at his residence on the Plank Road.

LOCAL DEATH RECORD

Recent Deaths and Funerals of Persons in This Vicinity.

Edith Steinbauck, wife of Guy Travis, died at her home in Marlborough on Wednesday, aged 24 years. Besides her husband she is survived by two children, her parents, four brothers and two sisters. The funeral was held this morning from St. Mary's Church, Marlborough, with interment in Lattinatown.

Mary Shafer, wife of Leonidas Dennis, died at her home in Southport, Conn., today. She was a daughter of the late Mr. and Mrs. Colonel B. Shafer of this city and had many friends in Kingston. She is survived by one brother, William C. Shafer, from whose residence, No. 117 Albany, the funeral will take place on Tuesday afternoon at 2:30 o'clock. Interment will be in Wiltwyck Cemetery.

The funeral of James Nulty was held Thursday morning from the late residence, 141 Greenkill avenue at 8:30 o'clock and from St. Joseph's Church at 9 o'clock, where a Mass of requiem was offered for the repose of his soul by the Rev. Joseph G. Cushman. The funeral cortege was very large and the floral tributes many and beautiful. The bearers were Hugh O'Neill, Dennis Whalen, Michael Larkin and Thomas Flannery. Interment in the family plot in St. Peter's Cemetery, Rosendale.

The funeral of William A. Brooks was held from the home of his brother, Lewis J. Brooks, 757 Broadway this morning, at 8:30 o'clock and from St. Joseph's Church at 9 o'clock, where a requiem Mass was offered for the repose of his soul by the Rev. Joseph G. Cushman. The services were largely attended and the floral offerings were profuse and beautiful. The bearers were Louis Sapp, Matthew Deegan, Robert Flynn and John Gillen. Interment in the family plot in St. Mary's Cemetery.

Lucinda, wife of the late Henry Weeks, died Friday morning at her home, No. 52 Clinton avenue, after a brief illness. Mrs. Weeks was born in Kingston, the daughter of the late John H. and Mary DuBois Hudler, and had been a resident of the city all her life. Early in life she became a member of the First Reformed Church and she always took an active interest in church work. She was a member of the Ladies' Aid Society of the church.

Mrs. Weeks also took a great interest in the work of the Young Men's Christian Association, and served the Ladies' Auxiliary of the association as its efficient president for thirteen years. She was president of the auxiliary at the time the campaign was inaugurated to raise funds for the erection of the present modern structure, and under her administration the auxiliary played an important part in making that campaign the big success it proved to be. It was during the years that she served the auxiliary as its president that the work of the auxiliary was enlarged and its membership grew in numbers. Of a kindly Christian character, Mrs. Weeks endeared herself to all who came in contact with her, and during the many years she had been a resident of Kingston she became widely and favorably known by her work in church circles and more especially as head of the auxiliary. Mrs. Weeks is survived by her daughter, Jennie Weeks Frey, wife of W. A. Frey of this city, and one grandson, Harry duBois Frey. She is also survived by three brothers, Walter C. Hudler of this city, Harry Hudler of Mt. Vernon and James duBois Hudler of Hoboken, N. J. The funeral services will be held Monday afternoon at 2:30 o'clock from the late residence on Clinton avenue, with interment in the family plot in Wiltwyck Cemetery.

Lord Didn't See Much to— Admire in Wordsworth

Wordsworth is held up for the derisive gaze of future generations in the journal of the fourth Lord Holland, published in London.

His lordship was a languid young man of fashion, who employed part of his leisure in the early days of the Nineteenth century in keeping a rather dull journal into which the unworldly public is at length permitted to gaze, says the Living Age.

One paragraph, scrawled on the evening of March 18, 1802, suffices, however, to redeem the journal, for the more important topic of food being safely disposed of, Lord Holland bestows three aristocratic sentences on Wordsworth:

"Dined at the B's. A very dull affair. We had, however, asperges, a rarity at this season. Lady B. informed me that these, as well as the pommies de terre, were sent direct from the estate. Over the wine talked with a young Mr. Wordsworth—a pompous, conceited kind of young man, and a poet. He belongs to the new school of ranting, canting, Germanising vapourists. One has to meet very odd people sometimes."

The Obscure and Faithful

What we call illusions are often, in truth, a wider vision of past and present realities—a willing movement of a man's soul with the larger sweep of the world's forces—a movement toward a more assured end than the chances of a single life. We see human heroism broken into units and say this unit did little—might as well not have been. But in this way we might break up a great army into units; in this way we might break the sunlight into fragments, and think that this and the other might be cheaply parted with it. Let us, rather, raise a monument to the soldiers whose brave hearts only kept the ranks unbroken, and met death—a monument to the faithful who were not famous, and who are precious as the continuity of the substance is precious, though some of them fall unseen and on barrenness.—George Eliot.

Composition of Sea Water

Most of the 92 sea elements believed to be in sea water, only have been found.

SCHOOL DAYS

Reflections of a Bachelor Girl

By HELEN ROWLAND

MANY a girl fancies that a man has fallen in love with her, when he has merely stumbled—and caught his balance.

Theoretically, a man may believe that a girl has the right to do the proposing; but when he hears anything that sounds like it from a woman's lips, it frightens him like a motor horn close to the ear.

The first bitter honeymoon quarrel is the "blowout" on the road to Happiness; after that, marriage always seems, somehow, to scrape along on a flat tire.

Before marriage, when a woman speaks to a man in an undertone, he calls it "cooing"; after marriage, he calls it "nagging."

Why is a man always so suspicious of a girl's "designs" upon him, when, nine times out of ten, a woman hasn't ANY designs; she has nothing but impulses.

The worst cases of incompatibility are those in which a man treats his wife's "afflictions" as a joke, and a woman regards her husband's jokes as an affliction.

Oh, yes, even a society woman needs a husband, if only for somebody to send postcards to from Europe or Florida, and to look up, when she's passing through town.

After the third year of marriage, a woman has to go to a beauty parlor in order to be told what wonderful eyelashes and nice thick hair she has. (Copyright by Helen Rowland.)

What For?

Young Newrich had spent twelve months abroad, and on his return was warmly greeted by his father, accompanied by guests.

"Well, Charley, old boy, enjoy your self!" cried old Newrich joyously. "And how you've grown!"

"Grown, father, grown," corrected his son, annoyed at the suppressed chuckles.

"Well, I'm blessed," replied the old man in a surprised tone. "Run notions you pick up abroad. What have I to groan for?"

The Young Lady Across the Way

The young lady across the way says if she ever gets a revolver it will be an automatic, as she never dare touch the thing. (© McClure Newspaper Syndicate.)

Destructive Tidal Waves

A tidal wave sweeping around the earth could attain a speed of 600 miles an hour. It moves the whole bulk of the ocean in its path and one such wave can do more destruction than years of gales.

Something to Think About

By F. A. WALKER

LOSING OUR BEARINGS

THE fine spirit of assurance which we mortals frequently exhibit in the presence of our rivals, very often withers out and crumbles before an explosive flame of passion.

It is in such a blaze that the petulant soul loses his bearing and wakes up in his senses to find himself adrift on an uncharted sea. If he is within him—but a small portion of the substantial fibre of which manhood is made, he places the fault where it belongs and proceeds without waste of time to mend his ways.

Every hour somewhere, capable men and women, qualified by innate ability and hard-bought education to manage large affairs, lose their course and go wrong, because of a little flaw in the mental structure which in the hour of test will not stand the hard strain.

Yesterday they were proud, conceited and overbearing; today they are humble, sad-eyed and despondent, lying in a flare-up of ungenerous emotion, gone too far in an unwarranted dispute with the master at the wheel. And, paradoxical as it may seem, very men and women who know the duty, commit the most grievous sins. They imagine they are indispensable that no other man or woman in all the wide world can be found to take the place. And this hallucination holds them in its grip until they slowly wake up and see everything around the going along at its customary gait.

That haughty old general, Ego, has caused as much misery in the world as have all the generals of war combined. He is in the field twenty-four hours a day and never loses a battle. When we find pride swelling in our breast, our hats getting too tight, our tried friends bemoaning, we are getting perilously close to the beforesaid state of mind where, if we do not overcome our egotism, we shall lose our bearings.

And again, when an overweening sense of importance lays its hands upon us and we lose the simplicity of manners which had always been our becoming stiff-necked, turn abruptly in hereditary and manifest a keen interest in heraldry, we need a long vacation in the vast open where we can commune alone with Mother Nature.

And at night in the sublime hush, beneath the stars, let us ask ourselves what has become of our great, weighty ambitions and lofty purposes! (© McClure Newspaper Syndicate.)

Has Anyone Laughed At You Because—

By ETHEL L. PEYSE

Of Being Too Close Mouthed? Here is a place where you are pretty much alone! The Mountain to Keep-Your-Mouth-Shut is far away and hard to climb. But, friends, stay there if you have reached it. The tongue has done as much harm as good in the world and if you know the "control" hold it and your tongue no matter who laughs.

You may get out of "gossip" feasts, but you will never get into messes. You will have time to do your work; you will have time, too, to make yourself popular, in other ways.

Will those who would like to join a class for the study of the catechism please meet with the pastor in the lecture room of the church at 2:30 o'clock Sunday afternoon. Morning worship at 11; sermon theme, "Lilies From Caesar's Household." The Christian Endeavor Society will meet in the church at 6:45 p. m. Topic, "In His Steps—How Jesus Cleared the Path for Disciples." Matt. 9:2; 10:24-33; John 14:1-3. Leader, Mrs. Charles Nelce. This is the monthly consecration meeting and will be a rally service. All members are urged to be present. At 7:30, evening worship. At this service the newly elected officers of the C. E. Society will be installed. All the new officers and chairmen are requested to be present. The sermon theme will be "The Dominance of Duty." The music for the day will be as follows:

MORNING. Organ Prelude—Adoration from "The Holy City".....Gaul Offertory—Elizabeth's Prayer, from "Tannhauser".....Wagner Organ Postlude—Festival March.....Tallman

EVENING. Organ Prelude—Pilgrim's Chorus.....Wagner Offertory—Nocturne in F.....Wagner Organ Postlude—The Son of God Goes Forth to War.....Whitting Miss Luther, organist and music director.

Note—The monthly consistory will be held in the parsonage tonight (Saturday) at 7:30 o'clock. The mid-week prayer and praise service will be held in the lecture room on Thursday evening at 7:30.

ALLIGERVILLE AND ACCORD HOME BUREAU MEETING

The first meeting of the Alligerville Home Bureau millinery course will be held at the home of Mrs. William DeGraw Wednesday, October 8, at 2 p. m. There will be much work to accomplish. Members are requested to bring scissors, thimble, needles, thread, some unbleached muslin or some old white material, a pair of pliers to cut wire, a piece of paper 36 inches wide by 23 inches long, some pins and a tape measure. A large attendance is looked for as the work will be interesting. Thursday, October 9, the local leaders of the Accord Home Bureau will give the first lesson in the millinery course at the Methodist Church hall, beginning at 1 p. m. Members are requested to bring the various articles as suggested to the Alligerville members above.

Bernard A. Martinez and wife to Mary E. Gropp, a tract of land in the town of Woodstock, known as the Traub farm. Consideration \$1.

Senators Favored In Today's Game

With Johnson on the Mound—Handover of McConnell-Dolan Scandal and Injuries Place Teams on Even Terms—Washington Taking Event Quietly.

(By Davis J. Walsh.)

By Telegraph to The Freeman.

Washington, Oct. 4.—They say the streets of Brussels fairly rang with revelry by night on the eve of the battle of Waterloo; that the Hessians sang long and loudly before the defeat at Princeton and that Cornwall marched to surrender at Yorktown, heavy eyed from the aftermath of a hard evening.

But staid old Washington awoke betimes to its first world series today to discover that it remained staid, old Washington, in spite of the fact that it was about to stake itself to what promises to be the most unusual set of games that organized baseball has known. Its inspired Senators were to take on the New York Giants in the series inaugural this afternoon with Walter Johnson's smoke ball on view in a world series for the first time since that esteemed gentleman entered the big time seventeen years ago; yet Washington took the matter with dispassionate calm, wholly unexpected in view of its lengthy wait for a pennant winner.

Typical Johnson Day.

It was a typical Johnson day, with a mist hanging low over the field and a weather bureau forecast that the afternoon would remain cloudy. In that case, the Giants, Harris said, by injuries and the hangover of the O'Connell-Dolan scandal, will step to the plate to try to do business with a baseball that is not altogether discernible to the unrobed eye. Because of Johnson, the Senators will step out as six to five favorites to win the opening game and even money choices to win the series. Physically they had the edge of the Giants, who were weakened by injuries to Heinie Groh and Frank Frisch; psychologically they were highly esteemed because of the nasty scandal that burst in the faces of the Giants less than 72 hours before the opening game.

As Stanley Harris, our well known juvenile manager, put it to the writer: "If the Giants have guilty knowledge, they will be easy for us. If they haven't then I look for the men under suspicion to play better ball than they ever did before."

Giants Crippled.

In either case the writer thinks the Giant morale may suffer. In view of what has gone before, it would be suicidal for Young, Kelly or Frisch to have an off day at any time during the series. A mere fumble might bring down on their heads great disaster, and the players in question need to be no smarter than the writer thinks they are to realize this. Frisch will hardly be himself, in any case. He is using a balloon tire for the middle finger of his throwing hand and may find not only fielding but hitting a difficult proposition. Frisch will play second base, however, because the Giants need his inspired leadership. But at third base, the fragile Groh, sporting a demountable knee, has been replaced by Fred Lindstrom, a young man of excellent defensive virtues but lacking both experience and the punch at the plate. Try as I will, I cannot help but feel that the Giants are not as good a bet as they were several days ago.

Just how much natural hostility they must face at Washington ball park and how much this may be enhanced by the expose of Dolan and O'Connell, only the next few hours can disclose. It is fact, not fiction, that Washington has taken the event rather quietly.

Hunting Ground For Scalpers.

Little or no betting has been evident in the hotel lobbies and excitement everywhere is somewhat below par.

Of course, no world series could be official without a ticker scandal and Washington already has had hers. The dear, old speculators seem to have fallen heir to blocks of choice seats and last night were attempting to peddle them for as much as \$100 for a single seat. These ghoulies of the profession distinct held the whip hand in that they had something the world wanted.

Washington today was a city with 100,000 residents desiring to see a ball game. Only 35,500 could be accommodated. Hence, it was a happy hunting ground for the pale face scalper.

Dance Tonight.

There will be a dance tonight at the White Eagle Hall under the auspices of the Polish Sick and Aid Society. Music will be furnished by McLean's orchestra.

Weiner Hose Donation.

Weiner Hose Company at their meeting held Friday evening, voted to donate \$5 to the Salvation Army fund.

Blow Light "On" New

To "blow out" the light was a common expression in the days of oil lamps and candles, but with the advent of a new electric flashlight, the expression "blow on" the light will likely take hold. An ingenious inventor has produced a turbine flashlight for pocket use that resembles a whistle and as it has no battery to run down will last indefinitely. By blowing through the mouthpiece, a tiny turbine is set going and to producing electricity which is carried to the bulb.
